**“GROWTH IS
NEVER BY MERE
CHANCE; IT
IS THE RESULT
OF FORCES
WORKING
TOGETHER.”**

James Cash Penney

At Archidply, our business growth has happened through years of patient perseverance in creating an array of diverse products and solutions, building brand awareness and providing a compelling value-proposition to our customers.

As we move forward, we are adding an critical growth lever which will give our customers' one more reason to choose us as their interior designing partner. And drive our growth.

STATEMENT FROM THE CHAIRMAN

DEAR SHAREHOLDERS,

It is a pleasure to communicate my thoughts through this narrative as your Company posted a satisfying performance despite the multi-dimensional global challenges that cast a shadow on India's progress.

Notwithstanding prevailing volatility, our resilient nation deftly maneuvered through the maze to register solid economic progress that buoyed corporate India's sentiments and the ordinary person on the street.

Moreover, the real estate also rebounded well, with all segments within this vast space reporting appreciable growth. These realities provided tailwinds to the Company's performance. The improvement in profitability parameters was particularly heartening as it happened in a period of elevated inflation and rising interest rates. It adds a credibility watermark to our business model and strategies. As we step into the current year, we hope to sustain our momentum, which will help us create significant value for all our stakeholders.

Into the future

India is the beacon of economic hope for the world. While the Western world strives to battle recessionary conditions, India is marching ahead to strengthen its position in the global economic pecking order. The Government is leaving no stone unturned to establish India as a global manufacturing hub. Its policies are alluring global conglomerates to set shop in our country.

As the trend gains momentum over the coming years, I am optimistic that it will usher in considerable positivity for the real estate and our business space over the medium-term.

India's demographic dividend is another important positive that should

contribute to a more promising outlook for our sector and business.

1) India's more than 1.4 billion people, with an average age of 29, has one of the youngest populations globally. With this youth force stepping into the workforce, it will create a 'demographic dividend' to spur demand across sectors.

INDIA IS THE BEACON OF ECONOMIC HOPE FOR THE WORLD. WHILE THE WESTERN WORLD STRIVES TO BATTLE RECESSIONARY CONDITIONS, INDIA IS MARCHING AHEAD TO STRENGTHEN ITS POSITION IN THE GLOBAL ECONOMIC PECKING ORDER."

2) India's middle-class will continue to grow. According to the estimate of People Research on India's Consumer Economy (PRICE), the share of the middle class with an annual household income in excess of ₹5-30 lakh has more than doubled from 14% in FY05 to 31% in FY21. It is projected to rise to 63% by FY47.

Our plan for tomorrow

Over the years, the entire Archidply parivaar has persevered to build a strong base for our plywood and laminate verticals. We have created new

products that have gained considerable traction among opinion-influencers and decision-makers. It is reflected in our growing business volumes and increasing topline.

Having established our brand in the minds of discerning customers, we have planned to add a critical business level that promises to transition the organisation into the next level of growth.

We are foraying into the high-potential MDF Boards business under our Wholly Owned Subsidiary (WOS), with a capacity of 250 CBM per day greenfield facility at Sitarganj, Uttarakhand. This strategic initiative marks a significant milestone in our journey to become a future-ready organisation.

Alongside, we will continue to invest in augmenting our capacities and capabilities, drive product innovation and process improvement with equal zeal and accelerate our digital outreach efforts to cement our brands among the new-age consumers – the Indian youth. Moreover, we will work consciously on growing our dealer network to ensure we remain proximate to all consuming markets. Additionally, we will rejuvenate our product basket to ensure we effectively cater to premium and value segments. These prudent strategies will allow us to effectively capitalise on emerging opportunities and sustain our growth momentum well into the future.

Before I sign off, I sincerely thank all our stakeholders for their confidence and support. I am optimistic that we will script an exciting growth journey and unpack promising value for all those who believe in us.

Thank you.

STATEMENT FROM THE MANAGING DIRECTOR

“THE FUTURE HOLDS PROMISING OPPORTUNITIES FOR US, AND WE WILL APPROACH IT WITH CAUTIOUS OPTIMISM. WE ARE COMMITTED TO SEIZING NEW OPPORTUNITIES WITH DETERMINATION.”

DEAR FRIENDS,

Fiscal 2022-23 was an outlier as it tested the business model's robustness and the organisation's resilience to withstand volatility unleashed by geo-political strains. I am pleased to state that we delivered.

Having kickstarted our entrepreneurial journey as a small plywood manufacturing company only recently, we have come a long way to emerge as a respected brand across key markets in India. This is no mean achievement considering the competitive intensity in our business space.

We have keenly focused on strengthening our relations with our 2,000+ business partners, which has facilitated in sustaining our growth. Their unwavering support gives us the confidence to undertake strategic initiatives to accelerate business growth – theirs and ours.

Furthermore, our efforts in strengthening our Balance Sheet have put us in a sweet spot to deploy our cash flow into new high-growth, high-value areas that complement our existing verticals perfectly.

We have forayed into Medium-density fiberboard (MDF) and are setting up a greenfield unit to manufacture this engineered wood panel. Our unit should commence operations in FY24.

Why are we entering the MDF space?

The use of MDF is increasingly finding market acceptance over plywood globally, driven by cost factors and environmental concerns. Globally, the MDF to plywood consumption ratio is 80:20, but in India, the consumption ratio is 20:80.

The Indian scenario is about to undergo a structural shift. As per estimates, this ratio in India will improve to 50:50 by 2030. One of the key drivers of this transformation is the work-from-home culture, which continues even as the pandemic has ended for its convenience and cost parameters, which it offers corporates. According to industry experts, the Indian work-from-home furniture market was US\$ 2.22 billion in FY2021 and is expected to be US\$ 3.49 billion by FY2026, generating higher demand for MDF.

Moreover, with Gen-Z entering the workforce and disposable income

scaling north with India's sustained economic progress, the renovation market will spur demand for MDF.

Considering the potential the product offers, our innovation and manufacturing capabilities and our entrenched and expansive dealer base, we hope to make a good beginning. Over the medium-term, I see this vertical substantially contribute to the Company's growth and profitability.

In closing

The future holds promising opportunities for us, and we will approach it with cautious optimism. We are committed to seizing new opportunities with determination. I am sincerely grateful for the support we have received thus far, which we believe will continue to propel us forward.

With warm regards,

Rajiv Daga
Managing Director & CEO

MANAGEMENT DISCUSSION & ANALYSIS

GLOBAL ECONOMY

The World economic activity has proven more resilient than expected, considering Russia's war of aggression against Ukraine and the resurgence of COVID-19 in China. Even though these factors weighed on economic growth, the global economy battled these headwinds with a GDP of 3.4%.

The real GDP print was subdued in all the advanced economies, including the United States and the Euro area, except major Asian emerging markets. Households spent more to satisfy pent-up demand, particularly on services, despite heightened inflation, partly by drawing down their stock of savings as economies reopened.

On the supply side, easing bottlenecks and declining transportation costs reduced pressures on input prices and allowed a rebound in previously constrained sectors. Energy markets have adjusted faster than expected to the shock from Russia's invasion of Ukraine.

Despite ongoing supply chain issues and volatile commodity prices, the global manufacturing sector output grew by a healthy 3.8% in 2022. Regionally, growth in Europe has been slow throughout the year, while it was stronger in APAC.

Global trade hit a record high of US\$ 32 trillion in 2022, with trade in goods reaching US\$ 25 trillion, with a growth of 10% over the previous year.

Outlook: Moving forward, global growth is projected to fall to 2.8% in 2023, considering the rise in central bank rates to fight inflation, especially in advanced economies and because of the war in Ukraine. But it is likely to go up again in 2024 to 3%. Advanced economies will continue to witness economic downturns, while global headline inflation is set to fall from 8.7% in 2022 to 7% in 2023 on the back of lower commodity prices.

INDIAN ECONOMY

India's overall growth remains robust despite the risks that the global economic turmoil has brought to the economy. India's GDP grew by 7.2% in FY23 owing to a broad-based improvement in domestic drivers such as private consumption, public consumption, and a surge in business investments.

The Government emphasised capital expenditure to push economic growth, and it worked. It remained a significant driver for investment as it increased by 63.4% in the first eight months of FY23.

Inflation surged in FY23 as a result of the global geo-political crisis and supply chain issues. With higher food prices, the annual average inflation touched 6.7%. But because of prompt action by the RBI, inflation showed signs of moderation by the end of the last fiscal.

Despite inflation, private consumption expenditure, which comprises 61% of the GDP, grew by an estimated 7.5%

higher than the pre-pandemic 5-year average of 6.9%.

In FY23, Industrial Production in India (IIP) recorded a growth of 5.1% for the entire year. The eight-core sector, which comprises little more than 40% of IIP, stood at 7.6% in the same period. Electricity generation surged 8.9% in FY23 over the corresponding previous year.

India's exports (including merchandise and services) are expected to have increased by 13.84% to a record USD 770.18 billion in 2022-23. In the meantime, the Indian rupee was seen steadily depreciating from 74.50 to 83.25, a fall of more than 11% on a y-o-y basis.

Outlook: In FY24, inflation is expected to moderate to 5.1% but will likely stay above RBI's tolerance limit. Like last financial year, the Government of India's increasing capex for infrastructure is anticipated to drive investment growth in this fiscal year as well.

Further, moderation in commodity prices and robust credit growth are expected to support overall growth, which is why India's GDP is projected to be around 6% which is among the fastest in the world.

However, weak global demand, high-interest rates and their impact on household budgets, global recessionary environment, contraction in exports and their impact on employment, and the potential effects of El Nino on crops can negatively impact economic growth.

GLOBAL FURNITURE MARKET

Among the significant factors favorably affecting the global furniture market are the burgeoning worldwide population, increased urbanisation, and rising development of both residential and commercial buildings.

Additionally, the demand for lightweight, adaptable, portable furniture with ample storage is rising globally due to the growth of the travel and tourism industries, rising income levels, changing lifestyles, and rising living standards. In addition, the rise in nuclear families is fueling demand for foldable, compact furniture that is simple to set up in confined spaces.

The Asia-Pacific region dominates the global furniture market with a 43% market share, which is attributable to

the large number of wood furniture producers in nations like China and India. Other than the common factors, the region's furniture market is growing due to a steady rise in consumer spending power. North America stood second with around 25% market share.

Growth drivers: The global furniture market is projected to increase due to the major players in the industry launching their exclusive online platforms and forming alliances with e-commerce platforms to expand their distribution networks.

The rivalry intensified with the arrival of a global furniture giant in the Indian subcontinent, which aided the companies in bolstering their global position.

Additionally, the growing adoption of premium-quality home décor items among the population in countries such as India and Australia further drive the furniture market growth in the region.

GLOBAL MEDIUM-DENSITY FIBERBOARD MARKET

The global medium-density fiberboard market size was valued at USD 39.76 billion in 2022 and is expected to register a compound annual growth rate (CAGR) of 6.9% over the forecast period of 2023-2030.

Regarding regions, the global medium-density fiberboard market can be bifurcated into North America, Europe, Asia Pacific, Latin America, and the Middle East & Africa.

Asia Pacific accounted for a large market share in 2020 and is expected to dominate the market due to the rising construction activities in countries such as India, South Korea, China, and Japan. Among these countries, China is a large consumer of MDF panels due to high product dispersion in the construction and furniture manufacturing industry.

Growth drivers: Cost-effective products and the availability of several varieties of application-specific panels are some of the factors that are likely to compel manufacturers to opt for these products in construction and furniture applications.

Further, the demand for MDF products is anticipated to increase due to their superior qualities, including high strength and durability.

GLOBAL PLYWOOD MARKET

The global plywood market was estimated at US\$ 105.9 billion in 2021 and is projected to reach US\$ 146.7 billion by 2030 at a compound annual growth rate (CAGR) of 6.1% during the forecast period.

Manufacturers operating in the global plywood market focus on developing zero-emission plywood to reduce the environmental impact and increase their market share. For instance, in 2020, one of India's largest interior infrastructure companies launched its first-of-a-kind zero-emission plywood. In an environmentally conscious era, this type of sustainable product creates new growth opportunities in the market.

Asia-Pacific dominates the plywood market due to rising production activities in the region. It is also the fastest-growing market in the world, driven by high economic growth and heavy investments in building & construction, industrial and housing development.

Growth drivers: Major plywood market companies are using biodegradable chemicals for plywood preservation to enable long life by protecting the wood from rotting owing to microbial agent attacks and insects. Companies use biodegradable chemicals instead of chromate copper arsenate (CCA),

one of the most widely used wood preservatives.

The presence of extensive forest cover in countries such as China, India, Indonesia and other Southeast Asian countries supports the growth of the plywood market. Additionally, the rise in partnerships and collaborations supports the market and is expected to raise the demand for plywood.

The increased usage of plywood in numerous industrial markets because of its excessive resistance to a wide variety of chemical compounds has provided a thrust to both the global and regional marketplace. Further, it has outstanding fire resistance properties and flexibility and structural strength. It also offers sound and extreme heat insulation. These characteristics make it worthwhile for various industries, including construction, aviation, and marine.

GLOBAL LAMINATES MARKET

As per the estimates of IMARC group, the global decorative laminates market size reached US\$ 43.6 Billion in 2022. IMARC Group expects the market to reach US\$ 56.1 Billion by 2028, exhibiting a growth rate (CAGR) of 3.9% from 2023-2028.

There is a rising demand for decorative laminates in hotels, hospitals, shopping malls, airports, educational institutions, and other commercial infrastructures owing to the wide availability of designs, colours, textures and many other factors.

The global laminate flooring market is experiencing steady growth due to growing construction activities across the globe. Asia-Pacific displays a clear dominance in the global laminate market accounting for the largest share.

Growth drivers: Several refurbishments and re-modeling activities in residential and commercial sectors of the developed regions have further propelled the demand for decorative laminates. Also, the low installation cost and low maintenance cost, as well as a greater preference for decorative laminates over wooden floorings, are boosting the demand.

The rising demand for eco-friendly flooring options due to increasing environmental concerns also provides an impetus to market growth. Further, product innovations in terms of pattern, texture and finishes that imitate various natural materials like stone and wood are also boosting the market.

INDIAN FURNITURE MARKET

Considering that India is anticipated to become the third-largest economy by 2030, the Government of India has identified the furniture industry as a significant contributor to the "Make in India" initiative.

The Indian furniture market is primarily fragmented with micro and small players or unorganised segments. They account for 80% of the market. The unorganised segment dominates the Indian furniture market as it offers cheaper products than those through the organised segment.

Product customisation availability in the unorganised sector is another factor for the segment's leading market position. However, as per industry experts, new players will accelerate the shift from the unorganised to the organised sector in the next five years.

One of the main reasons for the shift from the unorganised to the organised sector is that furniture shopping is now a virtually enabled buying experience from a purely physical one.

The furniture sector in India is getting rapidly organised off late because the Government of India has widened the

scope of GST. While in the pre-GST era, the rates fluctuated from region to region, the new GST regime has closed the disparity in pricing and procurement of high-quality materials.

As per Businesswire, the Indian furniture market stood at US\$ 17.77 billion in 2020 and is expected to rise to US\$ 37.72 billion by the end of 2026, growing at a double-digit CAGR of 13.37% during 2020-2026.

Furniture Export

As per the estimates of Invest India, there has been a three-time increase in India's furniture exports in April-January 2022-23 compared to the same period in 2013-14.

The Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) has agreed to modify an existing rule on exporting products made out of Shisham. This change may help improve India's furniture export which has dipped since 2016 following the treaty's introduction of such a provision.

India has recently concluded India-Australia Economic Cooperation and Trade Agreement (ECTA) and India-UAE Comprehensive Economic Partnership Agreement (CEPA), providing zero-duty market access opportunities for India-made furniture to these global markets.

INDIAN MEDIUM-DENSITY FIBERBOARD MARKET

In India MDF market size is expected to be 2.8 million CBM (₹3000 cores) in 2021 which will grow at a CAGR of 15-20% to ₹6000 cores by 2026. As per industry experts, the MDF: Plywood ratio in India is estimated to improve to 50:50 from the current 20:80 by 2030. This presents a strong growth potential for the MDF industry in India.

MDF costs significantly lower than plywood while devoid of particle grain and knots in its structure. Owing to these properties, this fiberboard is an

excellent alternative to plywood for application in areas wherein moisture and impact resistance are not the primary requirements.

India's furniture industry is changing considerably with the entry of domestic organised and international players. These players are expected to initiate more automation driving higher growth rates for the medium-density fiberboard sector since it is a raw material produced in fully automated plants.

MDF is extensively used in furniture, sports equipment and shoe heels with lower structural defects than plywood, which is produced in a labor-intensive environment. This makes it an ideal replacement for wood.

REGIONAL DEMAND FOR MDF IN INDIA

INDIAN PLYWOOD MARKET

As per the estimates of Research and Markets, the Indian plywood market reached a value of ₹243.9 billion in 2021 and is expected to reach ₹344.2 billion by 2027 at a CAGR of 5.97% during 2022-2027.

The growing demand for plywood is increasing due to the growing number of distribution networks and exclusive outlets of premium furniture manufacturers influencing the market positively in India.

Also, the rising integration of technologically advanced production methods to manufacture plywood with improved features, such as flexible plywood, is propelling the market's growth.

In addition, the growing utilisation of plywood for making partitions and false ceilings in houses and office spaces offers a favorable market outlook in the country. Apart from this, the increasing employment of plywood in manufacturing various easy-to-assemble and lightweight furniture contributes to the market's growth.

Moreover, the increasing number of government housing schemes and infrastructural projects, coupled with rising urban settlements in the country, bolsters the market's growth. One of the critical factors that will drive the growth of the plywood industry in India is the Government's focus on affordable housing.

Opportunities

Supported by Government's affordable housing initiatives, the real estate sector in India is expected to reach US\$ 1 trillion in market size by 2030, up from US\$ 200 billion in 2021, and contribute 13% to the country's GDP by 2025. Retail, hospitality, and commercial real estate are proliferating, providing much-needed infrastructural support for India's growing needs.

With the popularity of online marketplaces and furniture-specific e-commerce platforms, customers are becoming accustomed to purchasing furniture online. This eventually helps companies grow their customer base while navigating the ever-changing consumer landscape.

According to experts, there will be a surge in the online home decor market in the near future. According to a report, the global market for online home

decor was estimated at \$98.4 billion in 2020 amid COVID-19 and is projected to a revised rise of \$348.3 billion by 2027. Many furniture players will be looking into a more extensive integration into the home décor space to tap into the opportunity.

Challenges

High raw material cost: Despite having sufficient availability of tropical and hardwood forests, raw material costs, on average, are more expensive than competing countries. Further, the global supply chain problems and high crude prices are some of the reasons for high input costs in the industry in recent years.

Lack of high-quality raw materials: Lack of quality raw materials is one of the challenges faced by the Indian plywood industry. Therefore, the industry must develop an efficient supply chain and procurement strategy.

Competition from unorganised players: The organised sector accounts for only 1/3rd of the Indian plywood market. Low-quality non-innovative products typically characterise the unorganised sector. But the formalisation of the economy by introducing GST may help reduce the gap between unorganised and organised segments.

FINANCIAL PERFORMANCE

The Company reported a stellar performance as the real estate market remained buoyant which accelerated sales volumes. The increased demand resulted in a strong uptick in revenue from operations and was reflected in an appreciable increase in the Company's bottomline.

OUTLOOK

The outlook for the current year appears promising as economic resurgence, improving trend in the real estate sector and growing renovation (consequent to increasing disposable income) suggest healthy growth in business volumes.

HUMAN RESOURCE

Archidply values its intellectual capital as an essential growth driver for doing business sustainably and profitably. It invests both time and money to develop various programmes that help upgrade its workforce both in terms of skill and capability to address current and future business needs.

The Company is led by a 373 strong workforce as on March 31, 2023 with an effective blend of youthfulness and experience.

During the year under review, the Company organised numerous programmes to upgrade the skillset of its team to align then with the dynamic business requirements. The HR team is now focused on strengthening the leadership pipeline across various verticals.

RISK MANAGEMENT

At Archidply, our risk strategy is determined by a risk appetite defined for a series of risk criteria. The criteria are based on sectoral circumstances, geo-political issues, liquidity available and our earnings target within accepted volatility limits. These criteria provide a reference for our operating divisions.

Our risk management framework encompasses strategy and operations and seeks to proactively identify, address and mitigate existing and emerging risks. The risk management framework goes far beyond traditional boundaries and seeks to involve all our key managers.

The Company has a robust risk management framework to identify and mitigate risks arising out of internal as well as external factors. There is a formal monitoring process at unit and company level, wherein new risks are identified, categorised as per impact and probability, mapped to key responsibilities of select managers and managed with appropriate mitigation plan.

To ensure transparency and critical assessment, we have a Risk Management Committee that coordinates the risk management system. The risk management framework is reviewed annually by the Audit Committee on behalf of the Board.

Cautionary Statement

Important factors such as economic developments within the country, demand and supply conditions of the industry, input prices, changes in Government regulations, tax laws and other factors such as litigation and industrial relations, influence the Company's operations. This may lead to the Company's projections and approximate estimates to dispose them as "forward looking statements". Though, these qualitative aspects are usually set in the framework meaning of applicable securities laws and regulations. The actual results may sometimes materially differ from those expressed or implied.

- (i) The voting period begins on 25th September, 2023, 10:00 am and ends on 27th September, 2023, 05:00 pm. During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of 21st September, 2023 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This

necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1: Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

- (iv) In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Independent Auditor's Report

To The Members of

M/S. ARCHIDPLY INDUSTRIES LIMITED

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone financial statements of **M/s. Archidply Industries Limited ("the Company")** which comprises the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of changes in Equity and the Statement of Cash Flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2023, and its Profit, total comprehensive Loss, the changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statement.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addresses the matter is provided in that context.

Descriptions of Key Audit Matter	How we addressed the matter in our audit
<p>A. Valuation of Inventories</p> <p>Refer to note 8 to the financial statements.</p> <p>The Company is having Inventory of ₹5071.19 Lakh as on 31st March, 2023.</p> <p>Inventories are to be valued as per Ind AS 2. As described in the accounting policies in note 1(10) to the financial statements, inventories are carried at the lower of cost and net realisable value. As a result, the management applies judgment in determining the appropriate provisions against inventory of Stores, Raw Material, Finished goods and Work in progress based upon a detailed analysis of old inventory, net realisable value below cost based upon future plans for sale of inventory.</p> <p>To ensure that all inventories owned by the entity are recorded and recorded inventories exist as at the year-end and valuation has been done correctly</p>	<p>We obtained assurance over the appropriateness of the management's assumptions applied in calculating the value of the inventories and related provisions by:</p> <ul style="list-style-type: none"> Completed a walkthrough of the inventory valuation process and assessed the design and implementation of the key controls addressing the risk. Verifying the effectiveness of key inventory controls operating over inventories; including sample based physical verification. Verify that the adequate cut off procedure has been applied to ensure that purchased inventory and sold inventory are correctly accounted. Reviewing the document and other record related to physical verification of inventories done by the management during the year. Verify that inventories are valued in accordance with Ind AS 2 Verifying for a sample of individual products that costs have been correctly recorded.

B. Revenue recognition on sale of goods and impairment loss allowance on trade receivables

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, rebates, scheme allowances, price concessions, incentives and returns, if any, ('variable consideration') as specified in the contracts with the customers.

An estimate of variable consideration payable to the customers is recorded as at the year end. Such estimation is done based on the terms of contracts, rebates and discounts schemes and historical experience.

In accordance with Ind AS 109 – Financial Instruments, the Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. In calculating the impairment loss allowance, the Company has considered its credit assessment and other related credit information for its customers to estimate the probability of default in future and has considered estimates of possible effect from increased uncertainties in economic environment. We identified estimation of variable consideration and impairment loss allowance on trade receivables as a key audit matter because the Company's management exercises significant judgments and estimates in calculating the said variable consideration and impairment loss allowance

- Comparing the net realisable value to the cost price of inventories to check for completeness of the associated provision.
- Reviewing the historical accuracy of inventory provisioning and the level of inventory write-offs during the year.

Our Conclusion:

Based on the audit procedures performed we did not identify any material exceptions in the Inventory valuation.

Our audit procedures included, amongst others:

- Tested a sample of sales transactions for compliance with the Company's accounting principles to assess the completeness, occurrence and accuracy of revenue recorded.
- We read and evaluated the Company's policies for revenue recognition and impairment loss allowance and assessed its compliance with Ind AS 115 – Revenue From Contracts With Customers' and Ind AS 109 'Financial Instruments', respectively.
- We assessed the design and tested the operating effectiveness of internal controls related to sales including variable consideration and impairment loss allowance on trade receivables.
- We performed the following tests for a sample of transactions relating to variable consideration:
 - Read the terms of contract including rebates and discounts schemes as approved by authorized personnel.
 - Evaluated the assumptions used in estimation of variable consideration by comparing with the past trends and understand the reasons for deviation.
 - Performed retrospective review to identify and evaluate variances.
- Tested the design, implementation and operating effectiveness of the Company's controls over computation of incentives and pay out against the corresponding liability
- We evaluated management's assessment of the assumptions used in the calculation of impairment loss allowance on trade receivables, including consideration of the current and estimated future uncertain economic conditions.
- For sample customers, we tested past collection history, customer's credit assessment and probability of default assessment performed by the management.
- We tested the mathematical accuracy and computation of the allowances.
- We read and assessed the relevant disclosures made within the standalone financial statements.

Our conclusion:

Based on the audit procedures performed we did not identify any material exceptions in the recognition of revenue and incentives and discount expenses.

Information other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report including Annexure to the Board's Report, but does not include the financial statements and our auditor's report thereon. The Company's annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management and Board of Director's for the Standalone Financial Statements

The Company's Management and Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting standards (Ind AS) prescribed under section 133 of the Act, read with the Companies (Indian Accounting standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection, application, implementation and maintenance of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management and Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A" statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

Annexure - B to the Independent Auditors' Report

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Archidply Industries Limited of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **M/s. Archidply Industries Limited ("the Company")** as of 31 March 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our Opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Note: - 1 SIGNIFICANT ACCOUNTING POLICIES

1. Corporate Information:

Archidply Industries Limited (the 'Company') is a public limited company domiciled in India incorporated under the provisions of the Companies Act. Its shares are listed on two recognized stock exchanges in India. The registered office of the company is at Plot No. 7, Sector-9, Integrated Industrial Estate, SIDCUL, Pant Nagar, Rudrapur - 263 153, Uttarakhand, India.

Company is engaged in the business of manufacturing two broad product segments, as follows:

- i) Wood Based Products: Plywood & Block Board.
- ii) Paper Based Products: Laminated Sheets(HPL)

It has branches and dealers' network spread all over the country. The Company is procuring raw material & trading goods locally as well as imports them. Goods are sold both in domestic and overseas markets.

The company's shares are listed in Bombay Stock Exchange Ltd. (BSE) and National Stock Exchange of India (NSE).

2. Basis of preparation of Financial Statements:

The Financial Statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as prescribed under Section 133 of the Companies Act 2013 ("the Act"), as notified under the Companies (Indian Accounting Standard) Rules, 2015 and other relevant provision of the Act, to the extent applicable and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the Standalone Financial Statement.

The financial statements have been prepared under historical cost convention and on an accrual basis, except for the following items which have been measured as required by relevant Ind AS:

- a) Financial Instruments classified as fair value through other comprehensive income.
- b) The defined benefit (loss)/profit is recognized as at the present value of defined benefit obligation less fair value of plan assets through other comprehensive income.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The Company's management evaluates all recently issued or revised accounting standards on an on-going basis.

Where changes are made in presentation, the comparative figures of the previous years are regrouped and re-arranged accordingly.

3. Accounting Estimates And Assumptions:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting year end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

4. Equity

a) Ordinary Shares

Ordinary shares are classified as Equity Share capital. Incremental costs directly attributable to the issuance of new shares and buyback are recognized as a deduction from equity, net of any tax effects.

b) Capital redemption reserve

As per Companies Act, 2013, capital redemption reserve is created when company purchases its own shares out of free reserves or securities premium. A sum equal to the nominal value of the shares so purchased is transferred to capital redemption reserve. The reserve is utilised in accordance with the provisions of section 69 of the Companies Act, 2013.

c) Securities Premium

The amount received in excess of the par value of equity shares has been classified as securities premium.

d) Retained Earnings

Retained earnings represent the amount of accumulated earnings of the company.

5. Property, Plant and Equipment

- a) Property, Plant and Equipment are stated at original cost (net of tax/ duty credit availed) less accumulated depreciation and impairment losses except freehold land which is carried at cost. Cost includes cost of acquisition, construction and installation, taxes, duties, freight, other incidental expenses related to the acquisition, trial run expenses (net of revenue) and pre-operative expenses including attributable borrowing costs incurred during pre-operational period.
- b) Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can

be measured reliably. The carrying amount of any component as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit and loss during the reporting period in which they are incurred.

- c) Assets which are not ready for their intended use on reporting date are carried as capital work-in-progress at cost, comprising direct cost and related incidental expenses.
- d) On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment as at 1st April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.
- e) Property, Plant and Equipments including continuous process plants are depreciated and/or amortized on Straight line Method on the basis of their useful lives as notified in Schedule II to the Companies Act, 2013. The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.
- f) Depreciation in respect of additions to assets has been charged on pro rata basis with reference to the period when the assets are ready for use. The provision for depreciation for multiple shifts has been made in respect of eligible assets on the basis of operation of respective units.
- g) Useful lives of the Property, Plant and Equipment as notified in Schedule II to the Companies Act, 2013 are as follows :
 - Buildings – 30 to 60 years
 - Plant and Equipments (Paper Division) - 15 years (Triple Shift)
 - Plant and Equipments (Other Division) - 15 years (Triple Shift)
 - Furniture and Fixtures - 10 years
 - Vehicles - 8 to 10 years
 - Office Equipments - 5 to 10 years
 - Computers – 3 years

6. Intangible Assets

- a) Intangible assets acquired by payment e.g., Goodwill, Trademark and Computer Software are disclosed at cost less amortization on a straight-line basis over its estimated useful life.
- b) Intangible assets are carried at cost, net of accumulated amortization and impairment loss, if any.
- c) On transition to Ind AS, the Company has elected to continue with the carrying value of all of its

intangible assets as at 1st April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the intangible assets

- d) Intangible assets are amortised on straight-line method as follows :
 - Goodwill – 20 years
 - Computer Software – 3 years
 - Trademark- 10 years

7. Investment Property

Investment Property are stated at original cost less accumulated depreciation and impairment losses except freehold land which is carried at cost. Cost includes cost of acquisition, construction and other incidental expenses related to the acquisition, trial run expenses (net of revenue) and pre-operative expenses including attributable borrowing costs incurred during pre-operational period.

However Company does not have any Investment Property as it is utilizing its Investment Property for Business purpose only.

8. Lease Property

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

9. Impairment of Assets

At each balance sheet date, the Company reviews the carrying amount of property, plant and equipment to determine whether there is any indication of impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of impairment loss. The recoverable amount is higher of the net selling price and the value in use, determined by discounting the estimated future cash flows expected from the continuing use of the asset to their present value.

During the year Company has recognized ₹1.99 Lakhs as impairment loss on its assets as it has retired assets which were of no use and no realizable value.

10. Inventories

- a) Inventories related to raw materials, packing materials, stores & spares are valued at cost on weighted average basis or net realizable value whichever is lower.
- b) Waste & scraps are valued at estimated realizable value.
- c) Materials in transit and Semi Finished goods are valued at cost or market value which ever is lower.
- d) Finished goods and process stock include all cost of purchases, cost of conversion and other related costs incurred in bringing the inventories to their present location and condition.
- e) Finished goods are valued at cost or net realizable value whichever is lower. Net realizable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.
- f) Obsolete, defective and unserviceable stocks are duly provided for.

11. Cash Flow Statement

Cash flows are reported using indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flow from regular revenue generating, financing and investing activities of the Company is segregated.

Cash and cash equivalents in the balance sheet comprise cash at bank, cash/cheques in hand and short term investments (excluding pledged term deposits) with an original maturity of less than twelve months.

12. Financial instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A. Financial Assets

(i) Initial Recognition and Measurement

The Company classifies its financial assets as those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss) and those to be measured at amortized cost.

(ii) Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- (a) Debt instruments measured at amortized cost using the effective interest rate method and losses arising from impairment are

recognized in Profit and Loss if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

- (b) Equity instruments at fair value through other comprehensive income.
- (c) Equity instruments at fair value through profit or loss (FVTPL)
- (d) Equity Instruments in subsidiaries are carried at cost, in accordance with option available in Ind AS 27 "Separate Financial Statements".

(iii) De-Recognition

A financial asset is de-recognized only when the Company has transferred the rights to receive cash flows from the financial asset, or when it has transferred substantially all the risks and rewards of the asset, or when it has transferred the control of the asset.

(iv) Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

As a practical expedient, the Company uses historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates to determine impairment loss allowance on portfolio of its trade receivables.

B. Financial Liabilities:

- i) **Classification as debt or equity** - Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.
- ii) **Equity instruments** - An equity instrument is any contract that evidences a residual interest in the

assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

iii) Initial Recognition and Measurement:

All Financials Liabilities are recognized net of transaction costs incurred.

iv) Subsequent Measurement-

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate ("EIR") method. Gains and losses are recognised in profit or loss when the liabilities are derecognised through the EIR amortisation process.

v) De-Recognition

All Financials Liabilities are removed from balance sheet when the obligation specified in the contract is discharged, cancelled or expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

13. Tax Asset

Tax assets and Tax liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

14. Revenue Recognition:

Revenue comprises of all economic benefits that arise in the ordinary course of activities of the Company which result in increase in Equity, other than increases relating to contributions from equity participants. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

Sale of Goods: The Company derives revenue principally from sale of Plywood, Laminates, Particle boards, Decorative Veneers and Flush Doors. Revenue from sales of goods is recognized on transfer of significant risks and rewards of ownership to the customers. Revenue shown in the Statement of Profit and Loss are inclusive of Excise Duty and the value of self-consumption, but excludes Goods & Service Tax(GST), inter-transfers, returns, trade discounts, other benefits passed to customers in kind, value added tax and Central sales tax.

Services: Revenue from Services are recognized as and when the services are rendered. The Company collects Goods & Service Tax on behalf of the government and therefore, it is not an economic benefit flowing to the Company and hence excluded from Revenue.

Interest: Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Insurance Claims: Insurance Claims are accounted for on acceptance and when there is a reasonable certainty of receiving the same, on grounds of prudence.

15. Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognized as income in equal amounts over the expected useful life of the related asset.

When the Company receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual installments.

16. Foreign Currency Transactions:

The Company's financial statements are presented in Indian Rupees ('INR'), which is also the Company's functional currency.

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate at the date of the transaction. At each balance sheet date, foreign currency monetary items are reported using the closing exchange rate. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rate are recognised as income or expenses in the period in which they arise.

Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rate at the date when the fair value is determined.

17. Employee Benefits:

Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which the related service is rendered.

Post Employment and Retirement benefits in the form of Gratuity and Leave Encashment are considered as defined benefit obligations and is provided for on the basis of third party actuarial valuation, using the projected unit credit method, as at the date of the Balance Sheet. Every Employee who has completed five years or more of service is entitled to Gratuity on terms not less favorable than the provisions of The Payment of Gratuity Act, 1972.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of reporting period on government bonds that have terms approximating to the terms of the related obligation

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions of the defined benefit obligation are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Employee benefits in the form of Provident Fund is considered as defined contribution plan and the contributions to Employees' Provident Fund Organisation established under The Employees' Provident Fund and Miscellaneous Provisions Act 1952 is charged to the Statement of Profit and Loss of the year when the contributions to the respective funds are due. The Company pays provident fund contributions to publicly administered provident funds as per local regulations.

The Company has no further payment obligations once the contributions have been paid.

18. Borrowing Costs:

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds.

General and specific borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets during the period of time that is required to complete and prepare the asset for its intended use. A qualifying asset is one that takes necessarily substantial period of time to get ready for its intended use.

All other borrowing costs are expensed in the period in which they are incurred.

19. Accounting for Taxes on Income:

Tax expenses comprise of current tax and deferred tax including applicable surcharge and cess.

Current Income tax is computed using the tax effect accounting method, where taxes are accrued in the same period in which the related revenue and expenses

arise. A provision is made for income tax annually, based on the tax liability computed, after considering tax allowances and exemptions. Provisions are recorded when it is estimated that a liability due to disallowances or other matters is probable.

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profits against which the deductible temporary differences, and the carry forward unused tax credits and unused tax losses can be utilised.

Deferred tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognized in other comprehensive income. As such, deferred tax is also recognised in other comprehensive income.

Deferred Tax Assets and Deferred Tax Liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the Deferred Tax Assets and Deferred Tax Liabilities relate to taxes on income levied by same governing taxation laws.

20. Contingent Liabilities & Contingent Assets:

Contingent liabilities are not provided for but are disclosed by way of Notes on Accounts.

Contingent liabilities is disclosed in case of a present obligation from past events

- (a) when it is not probable that an outflow of resources will be required to settle the obligation;
- (b) when no reliable estimate is possible;
- (c) unless the probability of outflow of resources is remote.

Contingent assets are neither accounted for nor disclosed by way of Notes on Accounts where the inflow of economic benefits is probable.

21. Current And Non- Current Classification:

The Normal Operating Cycle for the Company has been assumed to be of twelve months for classification of its various assets and liabilities into "Current" and "Non-Current".

The Company presents assets and liabilities in the balance sheet based on current and non-current classification.

An asset is current when it is

- (a) expected to be realised or intended to be sold or consumed in normal operating cycle
- (b) held primarily for the purpose of trading

- (c) expected to be realised within twelve months after the reporting period
- (d) Cash and cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- (e) All other assets are classified as non-current.

A liability is current when

- (a) it is expected to be settled in normal operating cycle
- (b) it is held primarily for the purpose of trading
- (c) it is due to be discharged within twelve months after the reporting period
- (d) there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.
- (e) All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

22. Corporate social responsibility (CSR) Activity

In case of CSR activities undertaken by the Company, if any expenditure of revenue nature is incurred or an irrevocable contribution is made to any agency to be spent by the later on any of the activities mentioned in Schedule VII to the Companies Act, 2013, the same is charged as an expense to its Statement of Profit and Loss and if any extra material amount has been done the same has been carried forward as current asset.

23. Earnings Per Share

Earnings per share are calculated by dividing the net profit or loss before OCI for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss before OCI for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

24. Segment Reporting

The Company's operating business segments are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

25. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Note 46. Financial Risk Management-Objectives and Policies

The Company's financial liabilities comprise long term borrowings, short term borrowings, capital creditors, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's financial assets include trade and other receivables, cash and cash equivalents, investment in subsidiaries at cost and deposits.

The Company is exposed to market risk and credit risk. The Company has a Risk management policy and its management is supported by a Risk management committee that advises on risks and the appropriate risk governance framework for the Company. The audit committee provides assurance to the Company's management that the Company's risk activities are governed by appropriate policies and procedures and that risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

(i) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises risk of interest rate, currency risk and other price risk, such as commodity price risk and equity price risk. Financial instruments affected by market risk include FVTPL investments.

Notes to Financial Statement for the year ended 31st March 2023

a. Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities. The Company has a treasury department which monitors the foreign exchange fluctuations on the continuous basis and advises the management of any material adverse effect on the Company.

Foreign Currency sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in foreign currency exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of assets and liabilities.

(Amount in Lakhs)		
Change in Foreign Currency Rates	Effect on Profit before Tax	
	As on 31 st March 2023	As on 31 st March 2022

-5% USD	-18.45	-8.20
5% EURO	1.12	11.89
-5% EURO	(1.12)	(11.89)

b. Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Increase/ Decrease in basis points	Effect on Profit before Tax (Amount in Lacs)
31 st March, 2023	+50	30.60
	-50	-30.60
31 st March, 2022	+50	26.53
	-50	-26.53

(ii) Credit Risks

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables).

The Company implements a credit risk management policy under which the Company only transacts business with counterparties that have a certain level of credit worthiness based on internal assessment of the parties, financial condition, historical experience, and other factors. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The Company has established a credit policy under which each new customer is analysed individually for creditworthiness.

Trade receivables

An impairment analysis is performed at each reporting date on an individual basis for all the customers. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on credit losses historical data. The maximum exposure to credit risk at the reporting date is the carrying value of trade receivables disclosed in Note 9 as the Company does not hold collateral as security. The Company has evaluated the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries.

Refer note no 9 for ageing of trade receivable as of 31st March, 2023 and 31st March, 2022.

Notes to Financial Statement for the year ended 31st March 2023

No significant changes in estimation techniques or assumptions were made during the reporting period.

Credit risk also arises from transactions with financial institutions, and such transactions include transactions of cash and cash equivalents, various deposits, and financial instruments such as derivative contracts. The Company manages its exposure to this credit risk by only entering into transactions with banks that have high ratings. The Company's treasury department authorizes, manages, and oversees new transactions with parties with whom the Company has no previous relationship.

Furthermore, the Company limits its exposure to credit risk of financial guarantee contracts by strictly evaluating their necessity based on internal decision making processes, such as the approval of the board of directors.

Credit risk exposure

The carrying amount of financial assets represents the Company's maximum exposure to credit risk. The maximum exposure to credit risk as of 31st March, 2023 and 31st March, 2022 are as follows:

	(Amount in Lakhs)	
	As on 31 st March 2023	As on 31 st March 2022

Add/(less): Allowance provided during the year	(52.53)	-
Loss Allowance at the end of the year	107.02	159.55

(iii) Liquidity Risk

The Company's objective is to maintain optimum levels of liquidity to meet its cash and collateral requirements at all times. The Company relies on a mix of borrowings and excess operating cash flows to meet its needs for funds. The current committed lines of credit are sufficient to meet its short to medium/ long term expansion needs. The Company monitors rolling forecasts of its liquidity requirements to ensure it has sufficient cash to meet operational needs. Besides, it generally has certain undrawn credit facilities which can be accessed as and when required; such credit facilities are reviewed at regular intervals. Thus, no liquidity risk is perceived at present.

Independent Auditor's Report

To The Members of

M/S. ARCHIDPLY INDUSTRIES LIMITED

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated financial statements of M/s. Archidply Industries Limited ("hereinafter referred to as "the Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), which comprises the Consolidated Balance Sheet as at March 31, 2023, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of changes in Equity and the Consolidated Statement of Cash Flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as the consolidated financial statements).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2023, and its consolidated Profit, total comprehensive income, the consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirement that are relevant to our audit of the consolidated financial statement in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statement.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addresses the matter is provided in that context.

Descriptions of Key Audit Matter	How we addressed the matter in our audit
<p>A. Valuation of Inventories</p> <p>Refer to note 8 to the financial statements.</p> <p>The Company is having Inventory of ₹ 5071.19 Lakh as on 31st March, 2023.</p> <p>Inventories are to be valued as per Ind AS 2. As described in the accounting policies in note 1(10) to the financial statements, inventories are carried at the lower of cost and net realisable value. As a result, the management applies judgment in determining the appropriate provisions against inventory of Stores, Raw Material, Finished goods and Work in progress based upon a detailed analysis of old inventory, net realisable value below cost based upon future plans for sale of inventory.</p>	<p>We obtained assurance over the appropriateness of the management's assumptions applied in calculating the value of the inventories and related provisions by:</p> <ul style="list-style-type: none"> Completed a walkthrough of the inventory valuation process and assessed the design and implementation of the key controls addressing the risk. Verifying the effectiveness of key inventory controls operating over inventories; including sample based physical verification. Verify that the adequate cut off procedure has been applied to ensure that purchased inventory and sold inventory are correctly accounted. Reviewing the document and other record related to physical verification of inventories done by the management during the year.

To ensure that all inventories owned by the entity are recorded and recorded inventories exist as at the year-end and valuation has been done correctly

- Verify that inventories are valued in accordance with Ind AS 2 Verifying for a sample of individual products that costs have been correctly recorded.
- Comparing the net realisable value to the cost price of inventories to check for completeness of the associated provision.
- Reviewing the historical accuracy of inventory provisioning and the level of inventory write-offs during the year.

Our Conclusion:

Based on the audit procedures performed we did not identify any material exceptions in the Inventory valuation.

B. Revenue recognition on sale of goods and impairment loss allowance on trade receivables

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, rebates, scheme allowances, price concessions, incentives and returns, if any, ('variable consideration') as specified in the contracts with the customers.

An estimate of variable consideration payable to the customers is recorded as at the year end. Such estimation is done based on the terms of contracts, rebates and discounts schemes and historical experience.

In accordance with Ind AS 109 – Financial Instruments, the Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. In calculating the impairment loss allowance, the Company has considered its credit assessment and other related credit information for its customers to estimate the probability of default in future and has considered estimates of possible effect from increased uncertainties in economic environment. We identified estimation of variable consideration and impairment loss allowance on trade receivables as a key audit matter because the Company's management exercises significant judgments and estimates in calculating the said variable consideration and impairment loss allowance

Our audit procedures included, amongst others:

- Tested a sample of sales transactions for compliance with the Company's accounting principles to assess the completeness, occurrence and accuracy of revenue recorded.
- We read and evaluated the Company's policies for revenue recognition and impairment loss allowance and assessed its compliance with Ind AS 115 – Revenue From Contracts With Customers' and Ind AS 109 'Financial Instruments', respectively.
- We assessed the design and tested the operating effectiveness of internal controls related to sales including variable consideration and impairment loss allowance on trade receivables.
- We performed the following tests for a sample of transactions relating to variable consideration:
- Read the terms of contract including rebates and discounts schemes as approved by authorized personnel.
- Evaluated the assumptions used in estimation of variable consideration by comparing with the past trends and understand the reasons for deviation.
- Performed retrospective review to identify and evaluate variances.
- Tested the design, implementation and operating effectiveness of the Company's controls over computation of incentives and pay out against the corresponding liability
- We evaluated management's assessment of the assumptions used in the calculation of impairment loss allowance on trade receivables, including consideration of the current and estimated future uncertain economic conditions.
- For sample customers, we tested past collection history, customer's credit assessment and probability of default assessment performed by the management.
- We tested the mathematical accuracy and computation of the allowances.
- We read and assessed the relevant disclosures made within the consolidated financial statements.

Our conclusion:

Based on the audit procedures performed we did not identify any material exceptions in the recognition of revenue and incentives and discount expenses.

Other Information

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Holding Company Board's Report including Annexure to the Board's Report, but does not include the financial statements and our auditor's report thereon. The Holding Company's annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management and Board of Director's for the Consolidated Financial Statements

The holding Company's Management and Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these Consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group in accordance with the Indian Accounting standards (Ind AS) prescribed under section 133 of the Act, read with the Companies (Indian Accounting standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of each Company and for preventing and detecting frauds and other irregularities; selection, application, implementation and maintenance of appropriate of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the respective management and Board of Directors are responsible for assessing the each Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Respective Management and Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated financial statements, including the disclosures, and whether the Consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of entities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial information of such entities included in the consolidated financial statements. We remain solely responsible for our audit opinion

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the group regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Annexure - B to the Independent Auditors’ Report

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Archidply Industries Limited of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **M/s. Archidply Industries Limited** as of 31 March 2023 in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

Opinion

In conjunction with our audit of the consolidated financial statements of **Archidply Industries Limited** hereinafter referred to as (“the Holding Company”) as of and for the year ended 31 March 2023, we have audited the internal financial controls with reference to the consolidated financial statements of the Holding Company and such companies incorporated in India under the Companies Act, 2013 which are its subsidiary companies, as of that date.

In our opinion, the Holding Company and such companies incorporated in India which are its subsidiary companies, have, in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls were operating effectively as at 31 March 2023, based on the internal financial controls with reference to consolidated financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “Guidance Note”).

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy

and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Consolidated Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls over Consolidated Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Note: - 1 SIGNIFICANT ACCOUNTING POLICIES

1. Corporate Information:

Archidply Industries Limited (the 'Company') is a public limited company domiciled in India incorporated under the provisions of the Companies Act. Its shares are listed on two recognised stock exchanges in India. The registered office of the company is at Plot No. 7, Sector-9, Integrated Industrial Estate, SIDCUL, Pant Nagar, Rudrapur - 263 153, Uttarakhand, India.

Company is engaged in the business of manufacturing two broad product segments, as follows:

i) Wood Based Products: Plywood & Block Board.

ii) Paper Based Products: Laminated Sheets(HPL)

It has branches and dealers' network spread all over the country. The Company is procuring raw material & trading goods locally as well as imports them. Goods are sold both in domestic and overseas markets.

The company's shares are listed in Bombay Stock Exchange Ltd.(BSE) and National Stock Exchange of India(NSE).

2. Basis of preparation of Consolidated Financial statements:

The Consolidated Financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015. The Consolidated Financial statements for year ended 31st March 2023 were prepared in accordance with Indian Accounting standards notified under the Company (Accounting Standards) Rules 2006 read with Rule 7(1) of the Companies (Accounts) Rules, 2014 and the provisions of the Companies Act, 2013 (hereinafter referred to as the 'previous GAAP').

The Consolidated Financial statements have been prepared under historical cost convention and on an accrual basis, except for the following items which have been measured as required by relevant Ind AS:

- a) Financial Instruments classified as fair value through other comprehensive income.
- b) The defined benefit loss/(profit) is recognized as at the present value of defined benefit obligation less fair value of plan assets through other comprehensive income.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The Company's management evaluates

all recently issued or revised accounting standards on an on-going basis.

Where changes are made in presentation, the comparative figures of the previous years are regrouped and re-arranged accordingly.

3. Accounting Estimates And Assumptions:

The preparation of Consolidated Financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the Consolidated Financial statements and the results of operations during the reporting year end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

4. Equity

a) Ordinary Shares

Ordinary shares are classified as Equity Share capital. Incremental costs directly attributable to the issuance of new shares and buyback are recognized as a deduction from equity, net of any tax effects.

b) Capital redemption reserve

As per Companies Act, 2013, capital redemption reserve is created when company purchases its own shares out of free reserves or securities premium. A sum equal to the nominal value of the shares so purchased is transferred to capital redemption reserve. The reserve is utilised in accordance with the provisions of section 69 of the Companies Act, 2013.

c) Securities Premium

The amount received in excess of the par value of equity shares has been classified as securities premium. Amounts have been utilized for share buyback from share premium account.

d) Retained Earnings

Retained earnings represent the amount of accumulated earnings of the company.

5. Property, Plant and Equipment

- a) Property, Plant and Equipment are stated at original cost (net of tax/ duty credit availed) less accumulated depreciation and impairment losses except freehold land which is carried at cost. Cost includes cost of acquisition, construction and installation, taxes, duties, freight, other incidental expenses related to the acquisition, trial run

expenses (net of revenue) and pre-operative expenses including attributable borrowing costs incurred during pre-operational period.

- b) Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of any component as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit and loss during the reporting period in which they are incurred.
- c) Assets which are not ready for their intended use on reporting date are carried as capital work-in-progress at cost, comprising direct cost and related incidental expenses.
- d) On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment as at 1st April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.
- e) Property, Plant and Equipments including continuous process plants are depreciated and/or amortized on Straight line Method on the basis of their useful lives as notified in Schedule II to the Companies Act, 2013. The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.
- f) Depreciation in respect of additions to assets has been charged on pro rata basis with reference to the period when the assets are ready for use. The provision for depreciation for multiple shifts has been made in respect of eligible assets on the basis of operation of respective units.
- g) Useful lives of the Property, Plant and Equipment as notified in Schedule II to the Companies Act, 2013 are as follows :
 - Buildings – 30 to 60 years
 - Plant and Equipments (Paper Division) - 15 years (Triple Shift)

 - Computers – 3 years

6. Intangible Assets

- a) Intangible assets acquired by payment e.g., Goodwill, Trademark and Computer Software are disclosed at cost less amortization on a straight-line basis over its estimated useful life.
- b) Intangible assets are carried at cost, net of accumulated amortization and impairment loss, if any.
- c) On transition to Ind AS, the Company has elected to continue with the carrying value of all of its intangible assets as at 1st April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the intangible assets
- d) Intangible assets are amortised on straight-line method as follows :
 - Goodwill – 20 years
 - Computer Software – 3 years
 - Trademark- 10 years

7. Investment Property

Investment Property are stated at original cost less accumulated depreciation and impairment losses except freehold land which is carried at cost. Cost includes cost of acquisition, construction and other incidental expenses related to the acquisition, trial run expenses (net of revenue) and pre-operative expenses including attributable borrowing costs incurred during pre-operational period.

However Company does not have any Investment Property as it is utilizing its Investment Property for Business purpose only.

8. Lease Property

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

9. Impairment of Assets

At each balance sheet date, the Company reviews the carrying amount of property, plant and equipment to determine whether there is any indication of impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of impairment loss. The recoverable amount is higher of the net selling price and the value in use, determined by discounting the estimated future cash flows expected from the continuing use of the asset to their present value.

During the year Company has recognized ₹1.99 Lakhs as impairment loss on its assets as it has retired assets which were of no use and no realizable value.

10. Inventories

- a) Inventories related to raw materials, packing materials, stores & spares are valued at cost on weighted average basis or net realizable value whichever is lower.
- b) Waste & scraps are valued at estimated realizable value.
- c) Materials in transit and Semi Finished goods are valued at cost or market value which ever is lower.
- d) Finished goods and process stock include all cost of purchases, cost of conversion and other related costs incurred in bringing the inventories to their present location and condition.
- e) Finished goods are valued at cost or net realizable value whichever is lower. Net realizable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.
- f) Obsolete, defective and unserviceable stocks are duly provided for.

11. Cash Flow Statement

Cash flows are reported using indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flow from regular revenue generating, financing and investing activities of the Company is segregated.

Cash and cash equivalents in the balance sheet comprise cash at bank, cash/cheques in hand and short term investments (excluding pledged term deposits) with an original maturity of twelve months or less.

12. Financial instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A. Financial Assets

(i) Initial Recognition and Measurement

The Company classifies its financial assets as those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss) and those to be measured at amortized cost.

(ii) Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- (a) Debt instruments measured at amortized cost using the effective interest rate method and losses arising from impairment are recognized in Profit and Loss if both the following conditions are met:
 - The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
 - Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.
- (b) Equity instruments at fair value through other comprehensive income.
- (c) Equity instruments at fair value through profit or loss (FVTPL)
- (d) Equity Instruments in subsidiaries are carried at cost, in accordance with option available in Ind AS 27 "Separate Financial Statements".

(iii) De-Recognition

A financial asset is de-recognized only when the Company has transferred the rights to receive cash flows from the financial asset, or when it has transferred substantially all the risks and rewards of the asset, or when it has transferred the control of the asset.

(iv) Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

As a practical expedient, the Company uses historically

observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates to determine impairment loss allowance on portfolio of its trade receivables.

B. Financial Liabilities:

- i) Classification as debt or equity -** Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.
- ii) Equity instruments -** An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.
- iii) Initial Recognition and Measurement:**
All Financials Liabilities are recognized net of transaction costs incurred.
- iv) Subsequent Measurement-**
After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate ("EIR") method. Gains and losses are recognised in profit or loss when the liabilities are derecognised through the EIR amortisation process.
- v) De-Recognition**
All Financials Liabilities are removed from balance sheet when the obligation specified in the contract is discharged, cancelled or expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

13. Tax Asset

Tax assets and Tax liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

14. Revenue Recognition:

Revenue comprises of all economic benefits that arise in the ordinary course of activities of the Company which result in increase in Equity, other than increases relating to contributions from equity participants. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is

measured at the fair value of the consideration received or receivable.

Sale of Goods: Revenue from sales of goods is recognised on transfer of significant risks and rewards of ownership to the customers. Revenue shown in the Statement of Profit and Loss are inclusive of Excise Duty and the value of self-consumption, but excludes Goods & Service Tax (GST), inter-transfers, returns, trade discounts, other benefits passed to customers in-kind, value-added tax and Central sales tax.

Services: Revenue from Services are recognized as and when the services are rendered. The Company collects service tax/Goods & Service Tax on behalf of the government and therefore, it is not an economic benefit flowing to the Company and hence excluded from Revenue.

Interest: Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Insurance Claims: Insurance Claims are accounted for on acceptance and when there is a reasonable certainty of receiving the same, on grounds of prudence.

15. Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognized as income in equal amounts over the expected useful life of the related asset.

When the Company receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual installments.

16. Foreign Currency Transactions:

The Company's Consolidated Financial statements are presented in Indian Rupees ('INR'), which is also the Company's functional currency.

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate at the date of the transaction. At each balance sheet date, foreign currency monetary items are reported using the closing exchange rate. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rate are recognised as income or expenses in the period in which they arise.

Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rate at the date when the fair value is determined.

17. Employee Benefits:

Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which the related service is rendered.

Post Employment and Retirement benefits in the form of Gratuity and Leave Encashment are considered as defined benefit obligations and is provided for on the basis of third party actuarial valuation, using the projected unit credit method, as at the date of the Balance Sheet. Every Employee who has completed five years or more of service is entitled to Gratuity on terms not less favorable than the provisions of The Payment of Gratuity Act, 1972.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of reporting period on government bonds that have terms approximating to the terms of the related obligation

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions of the defined benefit obligation are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Employee benefits in the form of Provident Fund is considered as defined contribution plan and the contributions to Employees' Provident Fund Organisation established under The Employees' Provident Fund and Miscellaneous Provisions Act 1952 is charged to the Statement of Profit and Loss of the year when the contributions to the respective funds are due. The Company pays provident fund contributions to publicly administered provident funds as per local regulations.

The Company has no further payment obligations once the contributions have been paid.

18. Borrowing Costs:

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds.

General and specific borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets during the period of time that is required to

complete and prepare the asset for its intended use. A qualifying asset is one that takes necessarily substantial period of time to get ready for its intended use.

All other borrowing costs are expensed in the period in which they are incurred.

19. Accounting for Taxes on Income:

Tax expenses comprise of current tax and deferred tax including applicable surcharge and cess.

Current Income tax is computed using the tax effect accounting method, where taxes are accrued in the same period in which the related revenue and expenses arise. A provision is made for income tax annually, based on the tax liability computed, after considering tax allowances and exemptions. Provisions are recorded when it is estimated that a liability due to disallowances or other matters is probable.

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profits against which the deductible temporary differences, and the carry forward unused tax credits and unused tax losses can be utilised.

Deferred tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognized in other comprehensive income. As such, deferred tax is also recognised in other comprehensive income.

Deferred Tax Assets and Deferred Tax Liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the Deferred Tax Assets and Deferred Tax Liabilities relate to taxes on income levied by same governing taxation laws.

20. Contingent Liabilities & Contingent Assets:

Contingent liabilities are not provided for but are disclosed by way of Notes on Accounts. Contingent liabilities is disclosed in case of a present obligation from past events

(a) when it is not probable that an outflow of resources will be required to settle the obligation;

(b) when no reliable estimate is possible;

(c) unless the probability of outflow of resources is remote.

Contingent assets are neither accounted for nor disclosed by way of Notes on Accounts where the inflow of economic benefits is probable.

21. Current And Non- Current Classification:

The Normal Operating Cycle for the Company has been assumed to be of twelve months for classification of its various assets and liabilities into "Current" and "Non-Current".

The Company presents assets and liabilities in the balance sheet based on current and non-current classification.

An asset is current when it is

- (a) expected to be realised or intended to be sold or consumed in normal operating cycle
- (b) held primarily for the purpose of trading
- (c) expected to be realised within twelve months after the reporting period
- (d) Cash and cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

- (e) All other assets are classified as non-current.

A liability is current when

- (a) it is expected to be settled in normal operating cycle
- (b) it is held primarily for the purpose of trading
- (c) it is due to be discharged within twelve months after the reporting period
- (d) there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.
- (e) All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

22. Corporate social responsibility (CSR) Activity

In case of CSR activities undertaken by the Company, if any expenditure of revenue nature is incurred or an irrevocable contribution is made to any agency to be spent by the later on any of the activities mentioned

in Schedule VII to the Companies Act, 2013, the same is charged as an expense to its Statement of Profit and Loss and if any extra material amount has been done the same has been carried forward as current asset.

23. Earnings Per Share

Earnings per share are calculated by dividing the net profit or loss before OCI for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss before OCI for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

24. Segment Reporting

The Company's operating business segments are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

25. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Note 46. Financial Risk Management-Objectives and Policies

The Company's financial liabilities comprise long term borrowings, short term borrowings, capital creditors, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's financial assets include trade and other receivables, cash and cash equivalents, investment in subsidiaries at cost and deposits.

The Company is exposed to market risk and credit risk. The Company has a Risk management policy and its management is supported by a Risk management committee that advises on risks and the appropriate risk governance framework for the Company. The audit committee provides assurance to the Company's management that the Company's risk activities are governed by appropriate policies and procedures and that risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

(i) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises risk of interest rate, currency risk and other price risk, such as commodity price risk and equity price risk. Financial instruments affected by market risk include FVTPL investments.

Notes to Consolidated Financial Statement for the year ended 31st March 2023

a. Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities. The Company has a treasury department which monitors the foreign exchange fluctuations on the continuous basis and advises the management of any material adverse effect on the Company.

Foreign Currency sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in foreign currency exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of assets and liabilities.

Change in Foreign Currency Rates	(Amount in Lakhs)	
	Effect on Profit before Tax	
	As on 31 st March 2023	As on 31 st March 2022
5% USD	74.40	8.20
-5% USD	-74.40	-8.20
5% EURO	1.12	11.89
-5% EURO	(1.12)	(11.89)

b. Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Increase/ Decrease in basis points	Effect on Profit before Tax (Amount in Lacs)
31 st March, 2023	+50	40.18
	-50	-40.18
31 st March, 2022	+50	26.89
	-50	-26.89

(ii) Credit Risks

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables).

The Company implements a credit risk management policy under which the Company only transacts business with counterparties that have a certain level of credit worthiness based on internal assessment of the parties, financial condition, historical experience, and other factors. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The Company has established a credit policy under which each new customer is analysed individually for creditworthiness.

Trade receivables

An impairment analysis is performed at each reporting date on an individual basis for all the customers. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on credit losses historical data. The maximum exposure to credit risk at the reporting date is the carrying value of trade receivables disclosed in Note 9 as the Company does not hold collateral as security. The Company has evaluated the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries.

Refer note no 9 for ageing of trade receivable as of 31st March, 2023 and 31st March, 2022.

No significant changes in estimation techniques or assumptions were made during the reporting period.

Credit risk also arises from transactions with financial institutions, and such transactions include transactions of cash and cash equivalents, various deposits, and financial instruments such as derivative contracts. The Company manages its exposure to this

Notes to Consolidated Financial Statement for the year ended 31st March 2023

credit risk by only entering into transactions with banks that have high ratings. The Company's treasury department authorizes, manages, and oversees new transactions with parties with whom the Company has no previous relationship.

Furthermore, the Company limits its exposure to credit risk of financial guarantee contracts by strictly evaluating their necessity based on internal decision making processes, such as the approval of the board of directors.

Credit risk exposure

The carrying amount of financial assets represents the Company's maximum exposure to credit risk. The maximum exposure to credit risk as of 31st March, 2023 and 31st March, 2022 are as follows:

	(Amount in Lakhs)	
	As on 31 st March 2023	As on 31 st March 2022

Add/(less): Allowance provided during the year	(52.53)	-
Loss Allowance at the end of the year	107.02	159.55

(iii) Liquidity Risk

The Company's objective is to maintain optimum levels of liquidity to meet its cash and collateral requirements at all times. The Company relies on a mix of borrowings and excess operating cash flows to meet its needs for funds. The current committed lines of credit are sufficient to meet its short to medium/ long term expansion needs. The Company monitors rolling forecasts of its liquidity requirements to ensure it has sufficient cash to meet operational needs. Besides, it generally has certain undrawn credit facilities which can be accessed as and when required; such credit facilities are reviewed at regular intervals. Thus, no liquidity risk is perceived at present.

Availability of Liquidity is as follows
