Chairman Message

Dear Shareholders,

As Chairman, it gives me great pleasure to address you at this crucial juncture, reflecting on our journey and outlining our strategic vision for the future. We operate within a dynamic and promising landscape, particularly given India's robust economic trajectory and the evolving demands within the plywood, laminate, and MDF industries.

The Indian Economic Canvas: A Story of Resilience and Growth

India continues to be a compelling story of economic resilience and growth on the global stage. Despite persistent global headwinds and geopolitical uncertainties, our nation's fundamental strengths – a large and young demographic, increasing urbanization, a burgeoning middle class, and strong government impetus on infrastructure development – provide a solid foundation for sustained expansion. Projections from leading financial institutions consistently place India as one of the fastest-growing major economies, with GDP growth expected to remain robust in the coming years (e.g., IMF projecting 6.2% in 2025 and 6.3% in 2026). This strong macro-economic environment naturally translates into significant opportunities for our sector, which is intrinsically linked to real estate, construction, and consumer spending.

Our core businesses in plywood, laminates, and MDF are at the forefront of India's evolving interior and construction landscape. Each segment presents unique opportunities and requires distinct strategic approaches:

- **Plywood:** The bedrock of our business, plywood continues to be a staple in construction and furniture. While the market sees competition, the demand for quality, durable, and sustainably sourced plywood remains strong. We are focused on enhancing our product offerings with value-added features such as fire-resistance and moisture-resistance, and strengthening our organized market presence against unorganized players. The government's focus on affordable housing and infrastructure further fuels demand in this traditional yet evolving segment.
- **Laminates:** The laminates industry is riding a wave of innovation and aesthetic appeal. Consumers are increasingly seeking versatile, cost-effective, and visually appealing surfacing solutions. The trend towards minimalist luxury, nature-inspired designs, and high-gloss finishes, coupled with technological advancements like digital printing for custom designs, is expanding the market significantly. Our commitment to sustainable and eco-friendly production, including low-emission and anti-bacterial laminates, positions us strongly to capture this growing demand for responsible and functional design.
- **MDF (Medium-Density Fibreboard):** MDF is truly a growth engine for the future. Its versatility, uniform density, and ease of processing make it ideal for modular furniture, interior decoration, and various construction applications. The 'Make in India' initiative and increasing mechanization in furniture manufacturing are driving the adoption of MDF. We are witnessing a clear shift towards engineered wood solutions, and our strategic investments in advanced MDF production capabilities, including moisture-resistant and fire-resistant variants, are designed to capture the exponential growth projected in this segment. The increasing preference for ready-made and low-maintenance furniture further amplifies MDF's market potential.

Our Strategic Imperatives for Sustainable Growth

To capitalize on these favourable industry dynamics, our strategic priorities remain clear:

1. **Innovation and Product Excellence:** We will continue to invest heavily in research and development to bring innovative, sustainable, and high-performance products to market that meet the evolving needs of architects, designers, and consumers.
2. **Operational Efficiency and Scale:** Enhancing our manufacturing capabilities, optimizing our supply chain, and leveraging technology for greater efficiency will be paramount to maintaining our competitive edge and achieving economies of scale.
3. **Market Expansion and Penetration:** We will continue to strengthen our pan-India distribution network, explore new regional markets, and reinforce our brand presence to deepen our market penetration.
4. **Sustainability and Responsible Practices:** As a responsible corporate citizen, our commitment to environmental stewardship will remain at the core of our operations. We will champion eco-friendly manufacturing processes and source materials responsibly.
5. **Talent Development and Digital Transformation:** Investing in our people and embracing digital transformation across all facets of our business will be critical for long-term success and agility in a rapidly changing world.

A Vote of Confidence

The current economic indicators, coupled with the inherent growth drivers within the Indian building materials and interior solutions sector, fill us with immense confidence. We believe our strategic focus on innovation, operational excellence, and sustainability positions us strongly for continued success.

I extend my sincere gratitude to our dedicated management team and employees, whose hard work and commitment are the bedrock of our achievements. My deepest appreciation also goes to you, our esteemed shareholders, for your continued trust and belief in our vision. Your support is invaluable as we navigate the exciting opportunities ahead and work towards creating enduring value.

We look forward to sharing our progress with you in the years to come.

Sincerely,
Deen Dayal Daga
Chairman

Managing Director Message

Managing Director

Dear Shareholders,

It is with immense pride and profound gratitude that I address you today, reflecting on a truly remarkable year for our company. We stand at a significant juncture, not only having navigated a dynamic economic landscape but also celebrating the momentous achievement of surpassing the ₹500 crore turnover mark – a testament to our collective vision, unwavering dedication, and strategic foresight.

The Indian economy continues to be a beacon of growth on the global stage. Despite lingering geopolitical uncertainties and inflationary pressures that have impacted various sectors, India's inherent resilience, driven by robust domestic consumption, government-led infrastructure development, and a burgeoning middle class, provides a fertile ground for sustained economic expansion. We have meticulously monitored these macroeconomic indicators, aligning our strategies to capitalize on the opportunities presented by this vibrant environment.

Our core industries – plywood, laminates, and MDF – are experiencing an exciting phase of evolution, mirroring India's broader economic narrative. The demand for organized, high-quality, and aesthetically superior surfacing solutions is at an all-time high. Factors such as rapid urbanization, increasing disposable incomes, a growing preference for ready-to-move-in homes, and the booming real estate and construction sectors are fuelling unprecedented growth in these segments.

Our success in achieving a ₹500 crore turnover is not merely a financial milestone; it is a validation of our strategic investments, operational efficiencies, and customer-centric approach. This achievement has been fuelled by:

- **Expanded Production Capacities:** We have prudently invested in greenfield manufacturing unit, enhancing our capacity across all product lines to meet the escalating demand.
- **Product Innovation and Diversification:** Our relentless focus on research and development has led to the introduction of innovative products that meet evolving market demands and consumer preferences, strengthening our competitive edge.
- **Robust Distribution Network:** We have further expanded and strengthened our pan-India distribution network, ensuring wider reach and timely delivery of our products to every corner of the country.
- **Brand Building and Market Penetration:** Strategic marketing initiatives and consistent brand building efforts have enhanced our brand recall and deepened our market penetration.
- **Talent and Team Excellence:** Above all, this achievement is a testament to the dedication, hard work, and unwavering commitment of our entire team – from the factory floor to the corporate office. Their passion and expertise are the true engines of our growth.

Looking ahead, we are optimistic and resolute. While we acknowledge the persistent global economic challenges, we are confident in India's growth story and the sustained demand within our industries. We will continue to invest in technological advancements, foster innovation, explore new market segments, and uphold our commitment to sustainability and environmental stewardship. Our focus will remain on enhancing shareholder value through profitable growth, operational excellence, and responsible corporate governance.

I extend my heartfelt gratitude to you, our esteemed shareholders, for your continued trust, confidence, and unwavering support. Your belief in our vision empowers us to reach new heights. I also express my sincere appreciation to our customers, suppliers, partners, and employees for their invaluable contributions to our journey.

Together, we look forward to another year of growth, innovation, and shared success.

With warm regards,

Rajiv Daga

MANAGEMENT DISCUSSION & ANALYSIS

Global Economy

The global economy in mid-2025 presents a complex picture, characterized by **slowing growth, persistent uncertainties, and diverging regional performances**. While a global recession is generally not anticipated, the pace of expansion is expected to remain below pre-pandemic averages, with significant downside risks.

Global GDP growth is projected to slow down in 2025 compared to 2024, with forecasts generally hovering around 2.3% to 3.0%. This represents a significant downgrade from earlier projections.

<https://www.oecd.org/en/about/news/press-releases/2025/06/global-economic-outlook-shifts-as-trade-policy-uncertainty-weakens-growth.html>

While some EMDEs, like India, are projected to maintain strong growth, many face a challenging outlook due to rising trade tensions and global uncertainty. Growth forecasts have been downgraded across most EMDE regions, particularly those reliant on global trade. Low-income countries continue to face challenges from debt burdens, limited fiscal space, and climate risks.

This is identified as the **top risk** to global growth, with changes in trade policy and relationships (including tariffs) being a major concern for businesses and economies worldwide. Escalating trade disputes could further dampen economic prospects and fuel inflation.

Ongoing conflicts and geopolitical tensions remain a significant disruptive force, impacting supply chains, commodity prices, and overall confidence.

Global headline inflation has fallen significantly from its peak in late 2022 (when it was close to 9%). In May 2025, OECD headline inflation stood at 4.0%, marking its lowest level since June 2021. Projections suggest a continued, albeit slow, decline. The expected global average inflation rate for 2025 is around 4.0%, potentially easing slightly to 3.9% in 2026 and 3.8% by 2028. This indicates that inflation is expected to remain "high" by historical standards for the medium term.

In summary, the global economy in 2025 is navigating a period of tempered growth, marked by significant headwinds from trade tensions and geopolitical risks. While disinflation continues in many regions, central banks face a delicate balancing act. Policymakers are challenged to address structural issues, reduce debt, and foster an environment conducive to sustainable and inclusive growth amidst ongoing uncertainties.

Indian Economy

India is firmly established as a rising global economic powerhouse, demonstrating remarkable resilience and consistent growth amidst a challenging global landscape. In a significant development, the nation has ascended to become the world's fourth-largest economy in 2025.

The country is projected to remain the fastest-growing major economy globally for both FY2024-25 and FY2025-26, with GDP growth rates consistently around 6.5-6.6%. This trajectory stands in stark contrast to lower global growth forecasts, with the International Monetary Fund (IMF) projecting global growth at 2.8-3.0% for 2025-26, underscoring India's exceptional outperformance.

Major opportunities for India stem from the "China Plus One" strategy, which is driving increased manufacturing foreign direct investment (FDI), and its advanced digital public infrastructure (India Stack), fostering financial inclusion and economic formalization. Targeted government initiatives are also boosting entrepreneurship and social welfare. The long-term vision of Viksit Bharat 2047 aims for sustained 8% annual growth over the next two decades.

India's economy continues its trajectory of robust expansion, solidifying its position as a rising global economic powerhouse. For the fiscal year 2024-25, the projected Gross Domestic Product (GDP) growth rate stands at a strong 6.6%, a forecast consistently echoed by the Reserve Bank of India (RBI).

A significant milestone in India's economic ascent is its achievement of becoming the world's fourth-largest economy in 2025, surpassing Japan, with a nominal GDP estimated at approximately \$4.19 trillion. The IMF further anticipates that India will overtake Germany by 2027, securing the third position globally. This upward trajectory underscores India's increasing economic influence on the world stage. The country's nominal GDP is projected to nearly triple within a decade, from ₹106.57 lakh crore in 2014-15 to ₹331.03 lakh crore in 2024-25, reflecting substantial and sustained economic expansion.

https://invest.up.gov.in/wp-content/uploads/2025/01/India_010125.pdf

The consistent projection of India as the fastest-growing major economy, significantly outpacing global growth forecasts, suggests a notable decoupling of India's domestic economic momentum from broader global slowdowns. Multiple sources, including the

RBI, IMF, UN, and CII, consistently project India's GDP growth at 6.2-6.8% for FY2024-25 and FY2025-26.

Rank	Country Name	GDP (USD Trillion)	GDP Per Capita (USD)	Source
1	United States	\$30.51	\$89.11 thousand	IMF
2	China	\$19.23	\$13.69 thousand	IMF
3	Germany	\$4.74	\$55.91 thousand	IMF
4	India	\$4.19	\$2.88 - \$2.93 thousand	IMF
5	Japan	\$4.19	\$33.96 thousand	IMF

The Indian real estate sector is poised for a robust year in 2025, driven by these policy shifts, potential interest rate cuts by the RBI (a 50 bps repo rate cut was noted in June 2025), and technological innovation.

- 1. Growth Projections:** India's real estate market is projected to grow from \$332.85 billion in 2025 to \$985.80 billion by 2030, with a Compound Annual Growth Rate (CAGR) of 24.25%.
- 2. Residential Market:** While home prices in major cities are projected to rise by 6.5% in 2025 (potentially outpacing inflation), the increased disposable income and various housing incentives are expected to sustain demand. The demand for larger, low-density housing (villas, townhouses) with privacy and green spaces is also on the rise.
- 3. Commercial Real Estate:** The commercial real estate market, particularly office spaces, is experiencing significant growth due to economic expansion and rising foreign investments. Tier 2 cities are emerging as attractive locations for businesses and Global Capacity Centres (GCCs).
- 4. Institutional Investments:** Institutional investments into India's real estate sector saw a significant surge in Q2 2025, primarily led by foreign investors targeting commercial assets. While annual inflows were lower, the quarterly growth reflects renewed investor confidence supported by strong macroeconomic fundamentals.
- 5. Key Drivers:** Beyond government schemes like PMAY, demand for larger homes, the rise in nuclear and dual-income families, interest in smart and sustainable housing, and continued infrastructure development are key drivers.
- 6. Buyer Behavior:** Digital research (over 85% of buyers start online), preference for RERA-registered projects, and bankable brands with a clean delivery record are shaping buyer behavior.
- 7. Challenges:** Despite the positive outlook, challenges remain, including the potential for an affordability crisis due to stagnant wage growth and rising home prices, leading to increased demand for rental housing and co-living spaces.

Government Initiatives

The Indian government has implemented a comprehensive array of strategic initiatives aimed at fostering economic growth while ensuring broad-based social inclusion. The "Make in India" campaign stands out as a flagship program designed to boost domestic manufacturing, encourage innovation, enhance skill development, and improve the overall ease of doing business across various sectors.

SWAMIH Fund 2.0: A significant allocation of ₹15,000 crore has been made to the Special Window for Affordable and Mid-Income Housing (SWAMIH) Fund 2.0. This fund, established as a blended finance facility with contributions from the government, banks, and private investors, aims to ensure the expeditious completion of 1 lakh stalled affordable and mid-income housing projects. This initiative is crucial for restoring buyer confidence and improving liquidity in the sector.

The government scheme, PMAY, has seen a significant increase in its budgetary allocation. For PMAY-Grameen (PMAY-G), the allocation for FY 2025-26 is ₹54,832 crore, marking a substantial increase from the Revised Estimate (RE) of ₹32,426.33 crore in FY 2024-25. This reflects a commitment to accelerate housing construction in rural areas. While a specific consolidated figure for PMAY-Urban 2.0 was not immediately available, the overall 'Centrally Sponsored Scheme' outlay, under which PMAY-Urban falls, has seen an increase, indicating continued support.

Global Plywood Market

The global plywood market is experiencing robust growth, driven primarily by increasing construction activities, demand for furniture, and growing infrastructure projects worldwide. The industry is also seeing a significant shift towards more sustainable and engineered wood products, fueled by technological innovations and a rising consumer preference for eco-friendly materials.

<https://straitresearch.com/report/plywood-market>

Market Size and Forecast

The global plywood market was valued at approximately **USD 59.01 billion in 2024** and is projected to grow from **USD 62.67 billion in 2025 to USD 104.53 billion by 2033**, demonstrating a Compound Annual Growth Rate (CAGR) of **6.60%** over the forecast period. Other reports indicate slightly different figures but confirm the strong growth trajectory, with projections reaching around **USD 100.2 billion by 2032 (CAGR 6.1%)** or **USD 115.06 billion by 2034 (CAGR 6.2%)**.

Indian Furniture Market

The Indian furniture market is experiencing a significant transformation, evolving from a largely unorganized and fragmented

sector into a more structured and competitive landscape. Driven by a confluence of demographic shifts, economic growth, and technological advancements, India is rapidly emerging as a key player in the global furniture industry.

<https://dataverseinc.in/the-future-of-indian-furniture-manufacturing-and-export-in-2024/>

Market Size and Growth Projections

The Indian furniture market is currently valued at approximately **USD 29.97 billion in 2025** and is projected to reach **USD 43.24 billion by 2030**, exhibiting a Compound Annual Growth Rate (CAGR) of **7.60%** during this period (Mordor Intelligence). Other reports indicate even more optimistic projections, with some forecasting the market to reach **USD 64.1 billion by 2032 with an 11.1% CAGR** (Persistence Market Research), or **USD 89.46 billion by 2030 with a 7.8% CAGR** (Grand View Research). This makes India the world's fourth-largest furniture market and the second-largest in the Asia-Pacific region, after China.

Key Market Drivers

- 1. Rapid Urbanization and Nuclear Families:** A significant driver is the fast-paced urbanization across India, with an increasing percentage of the population moving to urban centers in pursuit of better opportunities. This leads to a rising demand for new housing units and consequently, furniture to furnish these spaces. The growing trend of nuclear families also fuels demand for modular, space-saving, and modern furniture.
- 2. Rising Disposable Incomes and Changing Lifestyles:** As India's middle class expands and disposable incomes increase, consumers are more willing to invest in higher-quality, branded, and aesthetically pleasing furniture. Furniture is increasingly viewed as a lifestyle statement and an integral part of home decor, rather than just a functional item.
- 3. Government Initiatives and Housing Push:** Government programs like the Pradhan Mantri Awas Yojana (PMAY), which aims to provide affordable housing, directly stimulate the demand for residential furniture. Additionally, initiatives to boost the real estate industry and improve urban infrastructure contribute to overall market growth.
- 4. E-commerce and Digital Adoption:** The proliferation of e-commerce platforms has revolutionized furniture retail in India. Online channels offer a wider variety of products, competitive pricing, and the convenience of home delivery, reaching consumers even in Tier-3 and Tier-4 cities where organized retail is less prevalent. Technologies like Augmented Reality (AR) are enhancing the online shopping experience, allowing customers to visualize furniture in their own spaces.
- 5. Growth in Commercial and Hospitality Sectors:** India's booming commercial construction activities, driven by sectors like IT, co-working spaces, and hospitality (record influx of new hotel rooms), are creating substantial demand for office, ergonomic, and specialized commercial furniture.
- 6. Sustainability and Eco-Friendly Preferences:** There is a growing consumer awareness and preference for sustainable and eco-friendly furniture. A significant percentage of millennials are willing to pay a premium for certified sustainable furniture made from renewable or recycled materials like bamboo, rattan, and reclaimed wood. This trend is pushing manufacturers to adopt greener production processes and circular economy models.

Market Segmentation and Trends

- **By Application:**
 - **Home Furniture:** Leads the market, accounting for approximately 62% of the share in 2024. Demand is high for living, dining, and bedroom suites, with a growing emphasis on comfort and modularity.
<https://www.mordorintelligence.com/industry-reports/india-home-furniture-market>
 - **Office Furniture:** The fastest-growing segment, projected to grow at a 7.8% CAGR between 2025 and 2030, driven by the expansion of corporate spaces and the surge in work-from-home and hybrid work models creating demand for home office setups.
- **By Material:**
 - **Wood Furniture:** Remains the stronghold, holding about 61-62% of the market share in 2024. Its popularity is rooted in cultural affinity for solid woods like teak and sheesham, durability, aesthetic appeal, and adaptability to various styles. There's a rising trend for engineered wood and veneer-over-engineered cores due to cost-effectiveness and forest stewardship.
<https://theleafcrafts.com/blogs/news/benefits-of-solid-wood-furniture-in-india>
<https://www.mordorintelligence.com/industry-reports/india-furniture-market>
- **By Price Range:** The mid-range tier currently accounts for about 45% of the market, while the **premium tier is advancing fastest at an 8% CAGR** to 2030, reflecting increasing purchasing power.
<https://www.mordorintelligence.com/industry-reports/india-furniture-market>
- **By Geography:** **South India** dominated with a 30% share in 2024, while **East India is poised for the fastest growth** with an 8.6% CAGR through 2030. North India is also a significant market, driven by organized retail expansion and student migration.
<https://www.imarcgroup.com/india-furniture-market>
<https://www.mordorintelligence.com/industry-reports/india-furniture-market#:~:text=the%20forecast%20window.-%E2%80%A2,an%208.6%25%20CAGR%20through%202030.>

- **Customization and Design:** There's a strong trend towards customized and personalized furniture, allowing consumers to choose specific colors, materials, and sizes to fit their aesthetic preferences and living spaces. The blending of traditional and contemporary styles is also gaining traction.

"Make in India" Initiative and Exports

The "Make in India" initiative has significantly bolstered the domestic furniture manufacturing sector. While India's share in global furniture exports is relatively small (around 1.5% in 2023, with exports totaling over USD 2 billion), it has experienced unprecedented growth in the past decade.

<https://dataverseinc.in/the-future-of-indian-furniture-manufacturing-and-export-in-2024/>

- **Export Growth:** Indian furniture exports are projected to grow at a CAGR of 11.9% from 2024 to 2033, potentially reaching **USD 12.09 billion in 2033**. Some ambitious targets suggest India aims to achieve a furniture export target of USD 1 trillion by 2030.
- **Competitive Advantages:** India benefits from competitive labor costs, access to quality raw materials (teak, mango wood, rosewood), and a rich heritage of skilled craftsmanship.
- **Government Support:** Schemes like RoDTEP (Remission of Duties and Taxes on Exported Products) and Production-Linked Incentive (PLI) schemes reduce costs for exporters. The government is also developing "Export Enclaves" with world-class infrastructure and supporting export-related shared infrastructure projects in designated export centers.
- **Key Export Destinations:** The United States remains the largest market for Indian wooden and handcrafted items. Germany, the UK, UAE, Saudi Arabia, and Australia are also significant destinations.
- **Types of Exports:** Solid wood furniture, handcrafted and painted furniture, upholstered sofas and chairs, dining sets, bedroom sets, and office/modular furniture are commonly exported.

Overall, the Indian furniture market is on a strong growth trajectory, driven by internal demand and increasing global recognition of its craftsmanship and manufacturing capabilities. Government support, technological adoption, and a focus on sustainability are expected to further solidify India's position as a significant force in the global furniture industry

Indian Plywood Market

The Indian plywood market is a vital component of the nation's construction and interior design sectors, experiencing robust growth propelled by rapid urbanization, an expanding real estate sector, and rising disposable incomes. Valued at approximately USD 1.82 billion in 2024 and INR 235.1 billion in FY 2024-25, the market is projected to reach USD 3.44 billion by 2034, exhibiting a Compound Annual Growth Rate (CAGR) of 6.6% from 2025 to 2034.¹ The broader plywood and laminates market is also on a strong upward trajectory, expected to grow from USD 6.1 billion in 2024 to USD 9.13 billion by 2030, at a CAGR of 6.8%.²

<https://www.marketresearchfuture.com/reports/india-plywood-market-21646>

<https://plywood.royaletouche.com/blogs/plywood-industry-in-india>

India's trade dynamics in plywood highlight a significant aspect of its market. In 2023, India imported plywood valued at USD 190 million, accounting for an import volume of 761,447 cubic meters, positioning it as the 24th largest global plywood importer.¹ Conversely, India's plywood exports amounted to USD 71.6 million, with a volume of 65,493 cubic meters, making it the 33rd largest exporter globally.

https://www.globalwood.org/news/2025/news_20250604a.htm

Indian MDF Market

The use of Medium Density Fibreboard (MDF) is increasingly finding market acceptance over plywood and India is no exception. Its global market size is estimated at 105.16 million CBM (USD 50.2 billion) in 2021. It is expected to witness a CAGR of 9.6% in the period of 2021-2026. In India, the MDF market size is estimated to be 2.8 million CBM (i.e., Rs. 3000 crores) in 2021. It is expected to grow at CAGR of 15-20% to Rs. 6000 crores by 2026.

The Indian Furniture Industry (especially the residential and home furnishing segments) continues to be dominated by plywood. Globally, the MDF to plywood consumption ratio is 80:20, but in India, the ratio is skewed in favour of the plywood at 20:80. This number suggests that there is enough room for the growth of MDF in the country in the future.

According to Industry experts, it is estimated that the MDF : Plywood ratio in India will improve to 50:50 by 2030. This presents a strong growth potential for the MDF industry in India. It is expected to gain market share of low & medium grade plywood (which constitute 85% of the plywood market in India)

The outlook for the Indian MDF market is exceptionally positive, with robust growth projected across multiple horizons. The market is forecasted to grow at a Compound Annual Growth Rate (CAGR) of 15-20%, reaching Rs. 6000 crores by 2026.

Indian Laminate Market

The India Laminates Market is estimated at USD 2.20 billion in 2024, with a forecast to grow to USD 3.10 billion by 2033 at a CAGR of 3.80%.² Within this, the decorative laminates segment stands out as a key growth engine, valued at USD 1.74 billion in 2022 and anticipated to reach USD 2.68 billion by 2029 with a higher CAGR of 7.46%.

The Indian laminate market presents a complex yet promising landscape, characterized by varying growth rates across its segments. The overarching India Plywood and Laminates Market was valued at USD 6.1 billion in 2024 and is projected to achieve USD 9.13 billion by 2030, growing at a robust CAGR of 6.8%.¹ This combined market reflects the strong interconnectedness of these building materials within the construction and interior design sectors.

Focusing specifically on laminates, the broader India Laminates Market reached USD 2.20 billion in 2024 and is anticipated to expand to USD 3.10 billion by 2033, with a CAGR of 3.80%.

The India Wood and Laminate Flooring Market, a smaller but distinct niche, was valued at USD 76.9 million in 2021, growing to USD 80.1 million in 2022, and is expected to reach USD 113.1 million by 2030, with a CAGR of 4.4% from 2022 to 2030.

Opportunities

India's robust economic performance, with a GDP growth rate of 7% in 2024 following an 8.2% growth in 2023, strengthens the fundamentals for the entire wood panel industry. The broader plywood and laminates market alone is projected to grow from USD 6.1 billion in 2024 to USD 9.13 billion by 2030, at a Compound Annual Growth Rate (CAGR) of 6.8%.

<https://www.openpr.com/news/4040753/india-s-plywood-market-records-6-71-growth-in-fy24-as>
<https://www.techsciresearch.com/report/india-plywood-and-laminates-market/21515.html>

Key Opportunities Across Plywood, Laminates, and MDF:

- 1. Rapid Urbanization and Real Estate Boom:** India's swift urbanization and extensive infrastructure projects are fundamental drivers. The real estate sector is projected to expand to US\$ 1 trillion by 2030, contributing 13% to the country's GDP by 2025. This includes a projected 15-18 million sq. ft. of data center development by 2025 and a 37.8% surge in luxury housing sales between January and September 2024. A projected threefold increase in housing demand by 2036 and ongoing smart city development further create fertile ground for sustained demand for all these materials.
<https://www.marketresearchfuture.com/reports/india-plywood-market-21646>
<https://www.openpr.com/news/4040753/india-s-plywood-market-records-6-71-growth-in-fy24-as>
- 2. Rising Disposable Incomes and Evolving Consumer Preferences:** An expanding middle-class population, expected to reach 715 million by FY2031, is driving a growing appetite for premium and environmentally conscious wood solutions. Consumers are increasingly opting for higher-quality interior finishes, modular furniture, and customized designs, moving away from lower-quality options. This fuels demand for premium-grade plywood, decorative plywood (identified as the fastest-growing segment in plywood and laminates), and advanced wood finishes.

- 3. Growth in Engineered Wood Products (MDF and Particle Board):** While plywood currently dominates the Indian wood panel space, engineered wood products (including MDF and particle board) account for only 20% of India's wood panel market, a stark contrast to global trends. This highlights significant growth opportunities in this segment, with MDF alone potentially accounting for up to 50% of the Indian furniture market by 2030. This shift in consumer behavior creates new opportunities for manufacturers to innovate and expand capacity in engineered alternatives.
- 4. Technological Advancements and Product Diversification:** Continuous innovation in design and materials, including advanced printing technologies for realistic wood grain patterns in laminates and enhanced durability in plywood, is driving market expansion. Manufacturers are investing in cutting-edge solutions like moisture-proof and fire-resistant plywood, and there's increasing demand for calibrated plywood and pre-laminated boards for factory-finished modular furniture and CNC-driven designs.
- 5. Sustainability and Eco-Friendly Practices:** There is a significant and growing demand for sustainable and eco-friendly products, driven by rising environmental consciousness and green building standards. This includes a preference for FSC®-certified boards, GreenPro-labelled products, and formaldehyde-free or low-VOC adhesives. This trend positions companies investing in sustainable sourcing and certification to gain market share, especially in premium and institutional projects.
- 6. Prefabricated and Modular Construction:** The increasing adoption of prefabricated and modular construction methods, valued for their efficiency, cost-effectiveness, and reduced construction time, drives demand for versatile and lightweight materials like plywood and laminates.
- 7. Export Potential:** While India is a net importer of plywood, there is stable overseas demand, particularly from South Asian and Middle Eastern regions, and identified export potential to GCC and African markets for Indian suppliers.

Challenges:

Rising raw material costs, particularly timber, along with fluctuations in energy prices and variable import and customs duties on fixture products, may suppress margins and hinder industry growth. Additionally, the global economic slowdown and high

inflation are impacting consumer sentiment, potentially leading to reduced household spending on non-essential items and affecting both the export market and overall industry growth.

The furniture market is in a state of constant evolution due to rapidly changing consumer preferences. This dynamic environment requires the industry to continuously adapt and innovate in order to meet the ever-evolving demands of customers.

A significant portion of the Indian wood panel industry, including plywood, operates in the unregulated and unorganized sector, holding nearly 70% of the market share. This fragmentation often leads to inconsistencies in product quality, a lack of standardization, and challenges in scaling operations for smaller manufacturers. This structure also makes it difficult to enforce regulatory compliance uniformly across the industry.

The industry faces substantial environmental compliance and statutory burdens, particularly for smaller players. Import restrictions and evolving trade policies can also impact raw material costs and availability. Concerns about pollution from manufacturing units, including inadequate pollution control systems, discharge of untreated industrial wastewater, improper disposal of wood ash, and health risks from formaldehyde and wood dust, necessitate robust environmental management practices. Mandatory BIS certification for various plywood types adds another layer of compliance requirements.

Moreover, stringent regulations and standards related to environmental concerns and emissions pose challenges for the MDF market. The furniture industry is also subject to continuous evolution driven by rapidly changing consumer preferences, necessitating constant adaptation and innovation to meet evolving customer demands.

Outlook

The Company's outlook remains same as stated earlier, that is to enhance the capacity utilization of the existing installed capacity across various product lines. Your company looks to increase the capacity utilization thus improve the bottom line.

1. Risks and Concerns

At the core of the company's risk-mitigating initiatives, there is a comprehensive and integrated risk management framework, which comprises stringent norms and regulations along with a prudent control mechanism. The risk management approach conforms to the company's strategic direction, which is in line with shareholders' desired total returns, the company's credit

ratings and its desired risk appetite.

Slowdown in Demand, Market Dynamics, Competition risk, Resources availability, customer attrition risk, unpredictable economy, volatile business environment, credit risk and cheaper product availability are the various identifiable risks along with uncontrollable external factors. However, your company can respond and cautiously manage these risks by resorting to a conservative business policy and diligent business practices.

2. Internal Control Systems and their adequacy

The guidelines are set by the Board of Directors who are responsible for the internal control system. They verify its adequacy, effectiveness and application thereafter. The Company's internal control system is designed to ensure management efficiency, measurability and verifiability, reliability of accounting and management information, compliance with all applicable laws and regulations, and the protection of the Company's assets. This is to timely identify and manage the Company's operational, compliance-related, economic and financial risks.

The Company's internal control systems play an important role and acts as a supplement to the external control systems. Your company has appointed an internal auditor to streamline the system and has adequate internal control systems to maintain accuracy in accounting and financial transactions and comply with rules and regulations.

The internal control systems of the Company are monitored and evaluated by internal auditor and their finding & observations' are reviewed by the Audit Committee.

3. Human Capital

The Company's Industrial relations at all the levels remained cordial throughout the year. The Company periodically conducts skill enhancement training for its human capital.

4. Cautionary Note

Important factors such as economic developments within the country, demand and supply conditions of the industry, input prices, changes in Government regulations, tax laws and other factors such as litigation and industrial relations, influence the Company's operations. This may lead to the Company's projections and approximate estimates to dispose them as "forward looking statements".

Though, these qualitative aspects are usually set in the framework meaning of applicable securities laws and regulations. The actual results may sometimes materially differ from those expressed or implied.

The Company remains committed to responding to changing consumer sentiments within the dynamic retail landscape.

Independent Auditor's Report

To the Members of

M/S. ARCHIDPLY INDUSTRIES LIMITED

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone financial statements of **M/s. Archidply Industries Limited** ("the Company") which comprises the Standalone Balance Sheet as at March 31, 2025, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of changes in Equity and the Standalone Statement of Cash Flows for the year then ended and notes to the financial statements, including a summary of material accounting policies and other explanatory information (herein after referred to as "Standalone Financial Statement").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2025, and its Profit, total comprehensive Loss, the changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone financial statement.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addresses the matter is provided in that context.

Descriptions of Key Audit Matter	How we addressed the matter in our audit
Valuation of Inventories Refer to note 8 to the financial statements. The Company is having Inventory of Rs. 4876.24 Lakh as on 31st March, 2025. Inventories are to be valued as per Ind AS 2. As described in the accounting policies in note 1(9) to the financial statements, inventories are carried at the lower of cost and net realisable value. As a result, the management applies judgment in determining the appropriate provisions against inventory of Stores, Raw Material, Finished goods and Work in progress based upon a detailed analysis of old inventory, net realisable value below cost based upon future plans for sale of inventory. To ensure that all inventories owned by the entity are recorded and recorded inventories exist as at the year-end and valuation has been done correctly	We obtained assurance over the appropriateness of the management's assumptions applied in calculating the value of the inventories and related provisions by: - Completed a walkthrough of the inventory valuation process and assessed the design and implementation of the key controls addressing the risk. - Verifying the effectiveness of key inventory controls operating over inventories; including sample based physical verification. - Verify that the adequate cut off procedure has been applied to ensure that purchased inventory and sold inventory are correctly accounted. - Reviewing the document and other record related to physical verification of inventories done by the management during the year.

	• Verify that inventories are valued in accordance with Ind AS 2 • Verifying for a sample of individual products that costs have been correctly recorded. • Comparing the net realisable value to the cost price of inventories to check for completeness of the associated provision. • Reviewing the historical accuracy of inventory provisioning and the level of inventory write-offs during the year. Our Conclusion: Based on the audit procedures performed we did not identify any material exceptions in the Inventory valuation.
Revenue recognition on sale of goods and impairment loss allowance on trade receivables Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, rebates, scheme allowances, price concessions, incentives and returns, if any, ('variable consideration') as specified in the contracts with the customers. An estimate of variable consideration payable to the customers is recorded as at the year end. Such estimation is done based on the terms of contracts, rebates and discounts schemes and historical experience. In accordance with Ind AS 109 – Financial Instruments, the Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. In calculating the impairment loss allowance, the Company has considered its credit assessment and other related credit information for its customers to estimate the probability of default in future and has considered estimates of possible effect from increased uncertainties in economic environment. We identified estimation of variable consideration and impairment loss allowance on trade receivables as a key audit matter because the Company's management exercises significant judgments and estimates in calculating the said variable consideration and impairment loss allowance	Our audit procedures included, amongst others: • Tested a sample of sales transactions for compliance with the Company's accounting principles to assess the completeness, occurrence and accuracy of revenue recorded. • We read and evaluated the Company's policies for revenue recognition and impairment loss allowance and assessed its compliance with Ind AS 115 – Revenue From Contracts With Customers' and Ind AS 109 'Financial Instruments', respectively. • We assessed the design and tested the operating effectiveness of internal controls related to sales including variable consideration and impairment loss allowance on trade receivables. • We performed the following tests for a sample of transactions relating to variable consideration: • Read the terms of contract including rebates and discounts schemes as approved by authorized personnel. • Evaluated the assumptions used in estimation of variable consideration by comparing with the past trends and understand the reasons for deviation. • Performed retrospective review to identify and evaluate variances. • Tested the design, implementation and operating effectiveness of the Company's controls over computation of incentives and pay out against the corresponding liability • We evaluated management's assessment of the assumptions used in the calculation of impairment loss allowance on trade receivables, including consideration of the current and estimated future uncertain economic conditions. • For sample customers, we tested past collection history, customer's credit assessment and probability of default assessment performed by the management. • We tested the mathematical accuracy and computation of the allowances. • We read and assessed the relevant disclosures made within the standalone financial statements. Our conclusion: Based on the audit procedures performed we did not identify any material exceptions in the recognition of revenue and incentives and discount expenses.

Information other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report including Annexure to the Board's Report, but does not include the financial statements and our auditor's report thereon. The Company's annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to communicate the matter to those charged with governance. We have nothing to report in this regard.

Responsibility of Management and Board of Director's for the Standalone Financial Statements

The Company's Management and Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting standards (Ind AS) prescribed under section 133 of the Act, read with the Companies (Indian Accounting standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection, application, implementation and maintenance of appropriate of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management and Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on

the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "**Annexure A**" statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2A. As required by Section 143(3) of the Act, we report that:

- a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c. The Standalone Balance Sheet, the standalone Statement of Profit and Loss including other Comprehensive Income, Standalone Statement of changes in Equity and the Standalone Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
- d. In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with the Companies (Indian Accounting standards) Rules, 2015, as amended from time to time.
- e. On the basis of the written representations received from the directors as on 31st March, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2025 from being appointed as a director in terms of Section 164 (2) of the Act.
- f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our Report expresses an unmodified opinion on the adequacy and operating effectiveness of the company's internal financial controls over financial reporting.
- g. The modifications relating to the maintenance of accounts and other matters connected therewith in respect of audit trail are as stated in the paragraph 2B(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.

2B. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations which could impact its financial position as mentioned in note no.36 to the standalone Financial Statement.
- ii. The Company did not have any long-term contracts including derivatives contracts for which there were any material foreseeable losses.
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the company.
- iv. a. The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other source or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall:
 - directly or indirectly lender invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Company or
 - provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.
- b. The management has represented, that, to the best of its knowledge and belief, no funds have been received by the company from any person or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether,
 - directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or
 - provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- c. Based on audit procedures as we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause iv(a) and iv(b) contain any material mis-statement.
- v. The company has not declared or paid any dividend during the year, hence the provisions of section 123 of the Companies Act, 2013 is not applicable to the Company.
- vi. Based on our examination which included test checks and in accordance with requirements of the Implementation Guide on Reporting on Audit Trail under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014, the Company has used accounting software for maintaining its books of account, which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the respective software.

Further, where audit trail (edit log) facility was enabled and operated throughout the year, we did not come across any instance of audit trail feature being tampered with during the course of our audit.

Additionally, the audit trail has been preserved by the company as per the statutory requirements for records retention.

The back-up of audit trail (edit log) has been maintained on the servers physically located in India for financial year ended 31st March, 2025.

2C. With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

Annexure - B to the Independent Auditors' Report

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Archidply Industries Limited of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **M/s. Archidply Industries Limited** ("the Company") as of 31 March 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements. Inherent Limitations of Internal Financial Controls over Financial Reporting

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our Opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The company's shares are listed in Bombay Stock Exchange Ltd. (BSE) and National Stock Exchange of India (NSE).

2. Basis of preparation of Financial Statements :

The Financial Statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as prescribed under Section 133 of the Companies Act 2013 ("the Act"), as notified under the Companies (Indian Accounting Standard) Rules, 2015 and other relevant provision of the Act, to the extent applicable and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the Standalone Financial Statement.

The financial statements have been prepared under historical cost convention and on an accrual basis, except for the following items which have been measured as required by relevant Ind AS:

- a) Financial Instruments classified as fair value through other comprehensive income.
- b) The defined benefit (loss)/profit is recognized as at the present value of defined benefit obligation less fair value of plan assets through other comprehensive income.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The Company's management evaluates all recently issued or revised accounting standards on an on-going basis.

For the year ended 31st March, 2025, MCA has not notified any new standards or amendments to the

existing standards applicable to the Company.

Where changes are made in presentation, the comparative figures of the previous years are regrouped and re-arranged accordingly.

3. Accounting Estimates And Assumptions:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting year end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

4. Equity

a) Ordinary Shares

Ordinary shares are classified as Equity Share capital. Incremental costs directly attributable to the issuance of new shares and buyback are recognized as a deduction from equity, net of any tax effects.

b) Capital redemption reserve

As per Companies Act, 2013, capital redemption reserve is created when company purchases its own shares out of free reserves or securities premium. A sum equal to the nominal value of the shares so purchased is transferred to capital redemption reserve. The reserve is utilised in accordance with the provisions of section 69 of the Companies Act, 2013.

c) Securities Premium

The amount received in excess of the par value of equity shares has been classified as securities premium.

d) Retained Earnings

Retained earnings represent the amount of accumulated earnings of the company.

5. Property, Plant and Equipment

OWNED ASSET

- a) Property, Plant and Equipment are stated at original cost (net of tax/ duty credit availed) less accumulated depreciation and impairment losses except freehold land which is carried at cost. Cost includes cost of acquisition, construction and installation, taxes, duties, freight, other incidental expenses related to the acquisition, trial run expenses (net of revenue) and pre-operative expenses including attributable borrowing costs incurred during pre-operational period.
- b) Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of any

component as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit and loss during the reporting period in which they are incurred.

- c) Assets which are not ready for their intended use on reporting date are carried as capital work-in-progress at cost, comprising direct cost and related incidental expenses.
- d) On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment as at 1st April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.
- e) Property, Plant and Equipments including continuous process plants are depreciated and/or amortized on Straight line Method on the basis of their useful lives as notified in Schedule II to the Companies Act, 2013. The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.
- f) Depreciation in respect of additions to assets has been charged on pro rata basis with reference to the period when the assets are ready for use. The provision for depreciation for multiple shifts has been made in respect of eligible assets on the basis of operation of respective units.
- g) Useful lives of the Property, Plant and Equipment as notified in Schedule II to the Companies Act, 2013 are as follows :
 - Buildings – 30 to 60 years
 - Plant and Equipments (Paper Division) - 15 years (Triple Shift)
 - Plant and Equipments (Other Division) - 15 years (Triple Shift) Furniture and Fixtures - 10 years
 - Vehicles - 8 to 10 years
 - Office Equipments - 5 to 10 years
 - Computers – 3 years

LEASED ASSET (RIGHT OF USE ASSETS)

- a) The Company's lease asset classes primarily consist of leases for Land and Buildings. The Company assesses whether a contract is or contains a lease, at the inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:
 - (i) the contract involves the use of an identified asset
 - (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
 - (iii) the Company has the right to direct the use of the asset.
- b) The right-of-use asset is a lessee's right to use an asset over the life of a lease. The Company recognizes

a right-of-use asset ('ROU') and a corresponding lease liability for all lease arrangements in which it is a lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases of short-term and low value assets, the Company recognizes the lease payments as an operating expense over the term of the lease.

- c) The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made (Deposits and Rentals) at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

6. Lease Property

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

7. Lease Liabilities

Lease liability is initially measured at the present value of future lease payments. Lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rate. Lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability and reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement also adjusts the related leased assets

8. Intangible Assets

- a) Intangible assets acquired by payment e.g., Goodwill, Trademark and Computer Software are disclosed at cost less amortization on a straight-line basis over its estimated useful life.
- b) Intangible assets are carried at cost, net of accumulated amortization and impairment loss, if any.
- c) On transition to Ind AS, the Company has elected to continue with the carrying value of all of its intangible assets as at 1st April 2016 measured as

per the previous GAAP and use that carrying value as the deemed cost of the intangible assets

- d) Intangible assets are amortised on straight-line method as follows :

Goodwill – 20 years

Computer Software – 3 years

Trademark- 10 years

9. Investment Property

Investment Property are stated at original cost less accumulated depreciation and impairment losses except freehold land which is carried at cost. Cost includes cost of acquisition, construction and other incidental expenses related to the acquisition, trial run expenses (net of revenue) and pre-operative expenses including attributable borrowing costs incurred during pre-operational period.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal.

10. Impairment of Assets

At each balance sheet date, the Company reviews the carrying amount of property, plant and equipment to determine whether there is any indication of impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of impairment loss. The recoverable amount is higher of the net selling price and the value in use, determined by discounting the estimated future cash flows expected from the continuing use of the asset to their present value.

11. Inventories

- a) Inventories related to raw materials, packing materials, stores & spares are valued at cost on weighted average basis or net realizable value whichever is lower.
- b) Waste & scraps are valued at estimated realizable value.
- c) Materials in transit and Semi Finished goods are valued at cost or market value whichever is lower.
- d) Finished goods and process stock include all cost of purchases, cost of conversion and other related costs incurred in bringing the inventories to their present location and condition.
- e) Finished goods are valued at cost or net realizable value whichever is lower. Net realizable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.
- f) Obsolete, defective and unserviceable stocks are duly provided for.

12. Cash Flow Statement

Cash flows statement are reported using "Indirect method" as set out in the Ind AS 7 on 'Statement of Cash Flow', whereby profit before tax is adjusted for the effects

of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flow from regular revenue generating, financing and investing activities of the Company is segregated.

Cash and cash equivalents in the balance sheet comprise cash at bank, cash/cheques in hand and short term investments (excluding pledged term deposits) with an original maturity of less than twelve months.

13. Financial instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A. Financial Assets

(i) Initial Recognition and Measurement

The Company classifies its financial assets as those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss) and those to be measured at amortized cost.

(ii) Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- (a) Debt instruments measured at amortized cost using the effective interest rate method and losses arising from impairment are recognized in Profit and Loss if both the following conditions are met:
 - The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
 - Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.
- (b) Equity instruments at fair value through other comprehensive income.
- (c) Equity instruments at fair value through profit or loss (FVTPL)
- (d) Equity Instruments in subsidiaries are carried at cost, in accordance with option available in Ind AS 27 "Separate Financial Statements".

(iii) De-Recognition

A financial asset is de-recognized only when the Company has transferred the rights to receive cash flows from the financial asset, or when it has transferred substantially all the risks and rewards of the asset, or when it has transferred the control of the asset.

(iv) Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the Trade receivables or any contractual right

to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

As a practical expedient, the Company uses historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates to determine impairment loss allowance on portfolio of its trade receivables.

B. Financial Liabilities:

i) **Classification as debt or equity** - Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

ii) **Equity instruments** - An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

iii) Initial Recognition and Measurement:

All Financials Liabilities are recognized net of transaction costs incurred.

iv) Subsequent Measurement-

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate ("EIR") method. Gains and losses are recognised in profit or loss when the liabilities are derecognised through the EIR amortisation process.

v) De-Recognition

All Financials Liabilities are removed from balance sheet when the obligation specified in the contract is discharged, cancelled or expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

14. Revenue Recognition:

Revenue comprises of all economic benefits that arise in the ordinary course of activities of the Company which result in increase in Equity, other than increases relating to contributions from equity participants. Revenue is recognized to the extent that it is probable that the

economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

Sale of Goods: As per Ind AS 115 'Revenue from contracts with customers', Revenue from sale of goods is recognised when control of the products being sold is transferred to the customer and when there are no longer any unfulfilled obligations. The Performance Obligations in our contracts are fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on terms with customers. The Company derives revenue principally from sale of Plywood, Laminates, Decorative Veneers, MDF and Flush Doors. Revenue shown in the Statement of Profit and Loss are inclusive of the value of self-consumption, but excludes Goods & Service Tax (GST), inter-transfers, returns, trade discounts, other benefits passed to customers in kind.

Services: Revenue from Services is recognized as and when the services are rendered. The Company collects Goods & Service Tax on behalf of the government and therefore, it is not an economic benefit flowing to the Company and hence excluded from Revenue.

Interest: Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Insurance Claims: Insurance Claims are accounted for on acceptance and when there is a reasonable certainty of receiving the same, on grounds of prudence.

Corporate Guarantee Fee: Corporate Guarantee Fee is accounted for corporate Guarantee given to related party's Banker for their business use. Such revenue is recognised in the accounting period in which the services are rendered in accordance with agreement with the parties.

15. Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognized as income in equal amounts over the expected useful life of the related asset.

When the Company receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual installments.

16. Foreign Currency Transactions:

The Company's financial statements are presented in Indian Rupees ('INR'), which is also the Company's functional currency.

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate at the date of the transaction. At each balance sheet date, foreign currency monetary items are reported using the closing exchange rate. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at

the closing rate are recognised as income or expenses in the period in which they arise.

Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rate at the date when the fair value is determined.

17. Employee Benefits:

Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which the related service is rendered.

Post Employment and Retirement benefits in the form of Gratuity and Leave Encashment are considered as defined benefit obligations and is provided for on the basis of third party actuarial valuation, using the projected unit credit method, as at the date of the Balance Sheet. Every Employee who has completed five years or more of service is entitled to Gratuity on terms not less favorable than the provisions of The Payment of Gratuity Act, 1972.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of reporting period on government bonds that have terms approximating to the terms of the related obligation

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions of the defined benefit obligation are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Employee benefits in the form of Provident Fund is considered as defined contribution plan and the contributions to Employees' Provident Fund Organisation established under The Employees' Provident Fund and Miscellaneous Provisions Act 1952 is charged to the Statement of Profit and Loss of the year when the contributions to the respective funds are due. The Company pays provident fund contributions to publicly administered provident funds as per local regulations.

The Company has no further payment obligations once the contributions have been paid.

18. Borrowing Costs:

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds.

General and specific borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets during the period of time that is required to complete and prepare the asset for its intended use. A qualifying asset is one that takes necessarily substantial period of time to get ready for its intended use.

All other borrowing costs are expensed in the period in which they are incurred.

19. Accounting for Taxes on Income:

Tax expenses comprise of current tax and deferred tax including applicable surcharge and cess.

Current Income tax is computed using the tax effect accounting method, where taxes are accrued in the same period in which the related revenue and expenses arise. A provision is made for income tax annually, based on the tax liability computed, after considering tax allowances and exemptions. Provisions are recorded when it is estimated that a liability due to disallowances or other matters is probable.

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profits against which the deductible temporary differences, and the carry forward unused tax credits and unused tax losses can be utilised.

Deferred tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognized in other comprehensive income. As such, deferred tax is also recognised in other comprehensive income.

Deferred Tax Assets and Deferred Tax Liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the Deferred Tax Assets and Deferred Tax Liabilities relate to taxes on income levied by same governing taxation laws.

20. Contingent Liabilities & Contingent Assets:

Contingent liabilities are not provided for but are disclosed by way of Notes on Accounts. Contingent liabilities is disclosed in case of a present obligation from past events

- (a) when it is not probable that an outflow of resources will be required to settle the obligation;
- (b) when no reliable estimate is possible;
- (c) unless the probability of outflow of resources is remote.

Contingent assets are neither accounted for nor disclosed by way of Notes on Accounts where the inflow of economic benefits is probable.

21. Current And Non- Current Classification:

The Normal Operating Cycle for the Company has been assumed to be of twelve months for classification of its various assets and liabilities into "Current" and "Non-Current".

The Company presents assets and liabilities in the balance sheet based on current and non-current classification.

An asset is current when it is

- (a) expected to be realised or intended to be sold or consumed in normal operating cycle
- (b) held primarily for the purpose of trading
- (c) expected to be realised within twelve months after the reporting period
- (d) Cash and cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- (e) All other assets are classified as non-current.

A liability is current when

- (a) it is expected to be settled in normal operating cycle
- (b) it is held primarily for the purpose of trading
- (c) it is due to be discharged within twelve months after the reporting period
- (d) there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.
- (e) All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

22. Corporate social responsibility (CSR) Activity

In case of CSR activities undertaken by the Company, if any expenditure of revenue nature is incurred or an irrevocable contribution is made to any agency to be spent by the latter on any of the activities mentioned in Schedule VII to the Companies Act, 2013, the same is charged as an expense to its Statement of Profit and Loss and if any extra material amount has been done the same has been carried forward as current asset.

23. Earnings Per Share

Earnings per share are calculated by dividing the net profit or loss before OCI for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss before OCI for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects

of all dilutive potential equity shares.

24. Segment Reporting

The Company's operating business segments are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

25. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that the outflow of resources would be required to settle the obligation, the provision is reversed.

rate implicit in the lease or, if not readily determinable, using the incremental borrowing rate. Lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability and reducing the carrying amount to reflect the lease payments made. A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement normally also adjusts the leased assets.

* On account of Demerger of Plywood & Block Board and Particle & laminated board (both divisions) of The Mysore Chip Boards Limited in to the Company in the financial year 2007-08:

The Company, for and on behalf of The Mysore Chip Boards Limited has given a guarantee towards a show cause notice issued by the Excise Department demanding a dues from The Mysore Chip Boards Limited. However The Mysore Chip Boards Limited had deposited an amount of Rs. 16.00 lakhs/- (P.Y. Rs. 16.00 lakhs/-) with Central Excise Department. The Mysore Chip Boards Limited had filed an appeal & disputed the said demand and the demand has been reduced to Rs.81.02 lakhs/- (P.Y. Rs.81.02 lakhs/-) and the penalty of the same amount by Commissioner of Central Excise, Mysore on 05/10/2006. The Mysore Chip Board Ltd has filed an appeal to Custom, Excise & Service Tax Appellate Tribunal, Bangalore and obtained a stay order against that demand. The tribunal has remanded back the case to the Commissioner of Central Excise for taking fresh decision after following the principles of natural justice. The Department has filed the appeal before the Honourable Supreme Court against the order of the Tribunal.

81.02

81.02

The same has been disposed of on 19th August, 2020 by Honourable Supreme Court, confirming the impugned orders of CESTAT setting aside the Orders in-Original passed by the Adjudicating Authorities and remanding the matters back for readjudication with certain directions.

** The Company has received demand from Income Tax Department of Rs.80.33 lakhs for the AY 2020-21. The company has filed an appeal against the same which is pending with CIT Appellate1

The Company's financial assets include trade and other receivables, cash and cash equivalents, investment in subsidiaries at cost and deposits.

The Company is exposed to market risk and credit risk. The Company has a Risk management policy and its management is supported by a Risk management committee that advises on risks and the appropriate risk governance framework for the Company. The audit committee provides assurance to the Company's management that the Company's risk activities are governed by appropriate policies and procedures and that risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

(i) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises risk of interest rate, currency risk and other price risk, such as commodity price risk and equity price risk. Financial instruments affected by market risk include FVTPL investments.

a. Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities. The Company has a treasury department which monitors the foreign exchange fluctuations on the continuous basis and advises the management of any material adverse effect on the Company.

Foreign Currency sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in foreign currency exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of assets and liabilities.

(Amount in Lakhs)

Change in Foreign Currency Rates	Effect on Profit before Tax	
	As on 31st March 2025	As on 31st March 2024
5% USD	9.44	-1.28
-5% USD	-9.44	1.28
5% EURO	9.69	9.84
-5% EURO	(9.69)	(9.84)

b. Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

Notes to Financial Statement for the year ended 31st March 2025

	Increase/ Decrease in basis points	Effect on Profit before Tax (Amount in Lakhs)
31st March, 2025	+50	34.39
	-50	-34.39
31st March, 2024	+50	32.18
	-50	-32.18

(ii) Credit Risks

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables).

The Company implements a credit risk management policy under which the Company only transacts business with counterparties that have a certain level of credit worthiness based on internal assessment of the parties, financial condition, historical experience, and other factors. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The Company has established a credit policy under which each new customer is analysed individually for creditworthiness.

Trade receivables

An impairment analysis is performed at each reporting date on an individual basis for all the customers. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on credit losses historical data. The maximum exposure to credit risk at the reporting date is the carrying value of trade receivables disclosed in Note 9 as the Company does not hold collateral as security. The Company has evaluated the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries.

Refer note no 9 for ageing of trade receivable as of 31st March, 2025 and 31st March, 2024.

No significant changes in estimation techniques or assumptions were made during the reporting period.

Credit risk also arises from transactions with financial institutions, and such transactions include transactions of cash and cash equivalents, various deposits, and financial instruments such as derivative contracts. The Company manages its exposure to this credit risk by only entering into transactions with banks that have high ratings. The Company's treasury department authorizes, manages, and oversees new transactions with parties with whom the Company has no previous relationship.

Furthermore, the Company limits its exposure to credit risk of financial guarantee contracts by strictly evaluating their necessity based on internal decision making processes, such as the approval of the board of directors.

Credit risk exposure

The carrying amount of financial assets represents the Company's maximum exposure to credit risk. The maximum exposure to credit risk as of 31st March, 2025 and 31st March, 2024 are as follows:

(Amount in Lakhs)

Particulars	As on 31st March 2025	As on 31st March 2024

Add/(less): Allowance provided during the year	42.70	224.99
Loss Allowance at the end of the year	374.71	332.01

(iii) Liquidity Risk

The Company's objective is to maintain optimum levels of liquidity to meet its cash and collateral requirements at all times. The Company relies on a mix of borrowings and excess operating cash flows to meet its needs for funds. The current committed lines of credit are sufficient to meet its short to medium/ long term expansion needs. The Company monitors rolling forecasts of its liquidity requirements to ensure it has sufficient cash to meet operational needs. Besides, it generally has certain undrawn credit facilities which can be accessed as and when required; such credit facilities are reviewed at regular intervals. Thus, no liquidity risk is perceived at present.

Availability of Liquidity is as follows

INDEPENDENT AUDITOR'S REPORT

To the Members of

M/S. ARCHIDPLY INDUSTRIES LIMITED

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated financial statements of M/s. Archidply Industries Limited ("hereinafter referred to as "the Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), which comprises the Consolidated Balance Sheet as at March 31, 2025, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of changes in Equity and the Consolidated Statement of Cash Flows for the year then ended and notes to the financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as the consolidated financial statements).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2025, and its consolidated Profit, total comprehensive losses, the consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirement that are relevant to our audit of the consolidated financial statement in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statement.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addresses the matter is provided in that context.

Descriptions of Key Audit Matter	How we addressed the matter in our audit
A. Valuation of Inventories Refer to note 8 to the financial statements. The Company is having Inventory of Rs. 7971.31 lakh as on 31st March, 2025. Inventories are to be valued as per Ind AS 2. As described in the accounting policies in note 1(11) to the financial statements, inventories are carried at the lower of cost and net realisable value. As a result, the management applies judgment in determining the appropriate provisions against inventory of Stores, Raw Material, Finished goods and Work in progress based upon a detailed analysis of old inventory, net realisable value below cost based upon future plans for sale of inventory. To ensure that all inventories owned by the entity are recorded and recorded inventories exist as at the year-end and valuation has been done correctly	We obtained assurance over the appropriateness of the management's assumptions applied in calculating the value of the inventories and related provisions by: - Completed a walkthrough of the inventory valuation process and assessed the design and implementation of the key controls addressing the risk. - Verifying the effectiveness of key inventory controls operating over inventories; including sample based physical verification. - Verify that the adequate cut off procedure has been applied to ensure that purchased inventory and sold inventory are correctly accounted. - Reviewing the document and other record related to physical verification of inventories done by the management during the year. - Verify that inventories are valued in accordance with Ind AS 2 - Verifying for a sample of individual products that costs have been correctly recorded.

- Comparing the net realisable value to the cost price of inventories to check for completeness of the associated provision.
- Reviewing the historical accuracy of inventory provisioning and the level of inventory write-offs during the year.

Our Conclusion:

Based on the audit procedures performed we did not identify any material exceptions in the Inventory valuation.

B. Revenue recognition on sale of goods and impairment loss allowance on trade receivables

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, rebates, scheme allowances, price concessions, incentives and returns, if any, ('variable consideration') as specified in the contracts with the customers.

An estimate of variable consideration payable to the customers is recorded as at the year end. Such estimation is done based on the terms of contracts, rebates and discounts schemes and historical experience.

In accordance with Ind AS 109 – Financial Instruments, the Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. In calculating the impairment loss allowance, the Company has considered its credit assessment and other related credit information for its customers to estimate the probability of default in future and has considered estimates of possible effect from increased uncertainties in economic environment. We identified estimation of variable consideration and impairment loss allowance on trade receivables as a key audit matter because the Company's management exercises significant judgments and estimates in calculating the said variable consideration and impairment loss allowance

Our audit procedures included, amongst others:

- Tested a sample of sales transactions for compliance with the Company's accounting principles to assess the completeness, occurrence and accuracy of revenue recorded.
- We read and evaluated the Company's policies for revenue recognition and impairment loss allowance and assessed its compliance with Ind AS 115 – Revenue From Contracts With Customers' and Ind AS 109 'Financial Instruments', respectively.
- We assessed the design and tested the operating effectiveness of internal controls related to sales including variable consideration and impairment loss allowance on trade receivables.
- We performed the following tests for a sample of transactions relating to variable consideration:
 - Read the terms of contract including rebates and discounts schemes as approved by authorized personnel.
 - Evaluated the assumptions used in estimation of variable consideration by comparing with the past trends and understand the reasons for deviation.
 - Performed retrospective review to identify and evaluate variances.
- Tested the design, implementation and operating effectiveness of the Company's controls over computation of incentives and pay out against the corresponding liability
- We evaluated management's assessment of the assumptions used in the calculation of impairment loss allowance on trade receivables, including consideration of the current and estimated future uncertain economic conditions.
- For sample customers, we tested past collection history, customer's credit assessment and probability of default assessment performed by the management.
- We tested the mathematical accuracy and computation of the allowances.
- We read and assessed the relevant disclosures made within the standalone financial statements.

Our conclusion:

Based on the audit procedures performed we did not identify any material exceptions in the recognition of revenue and incentives and discount expenses.

Other Information

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Holding Company Board's Report including Annexure to the Board's Report, but does not include the financial statements and our auditor's report thereon. The Holding Company's annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management and Board of Director's for the Consolidated Financial Statements

The holding Company's Management and Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these Consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group in accordance with the Indian Accounting standards (Ind AS) prescribed under section 133 of the Act, read with the Companies (Indian Accounting standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of each Company and for preventing and detecting frauds and other irregularities; selection, application, implementation and maintenance of appropriate of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the respective management and Board of Directors are responsible for assessing the each Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Respective Management and Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report.

However, future events or conditions may cause the group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Consolidated financial statements, including the disclosures, and whether the Consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of entities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial information of such entities included in the consolidated financial statements. We remain solely responsible for our audit opinion

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the group regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A" statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

- v. The Group has not declared or paid any dividend during the year in contravention of the provisions of section 123 of the Companies Act, 2013.
- vi. Based on our examination which included test checks, performed by us on the Company and its subsidiary and in accordance with requirements of the Implementation Guide on Reporting on Audit Trail under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014, the group has used accounting software for maintaining their respective books of account for the financial year ended March 31, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the respective software.

Further, during the course of audit, where audit trail (edit log) facility was enabled and operated throughout the year, we have not come across any instance of the audit trail feature being tampered with.

Additionally, the audit trail has been preserved by the group as per the statutory requirements for records retention.

The back-up of audit trail (edit log) has been maintained on the servers physically located in India for financial year ended 31st March, 2025.

- h. With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid by the Group to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

Annexure - B to the Independent Auditors' Report

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Archidply Industries Limited of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **M/s. Archidply Industries Limited** as of 31 March 2025 in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

Opinion

In conjunction with our audit of the consolidated financial statements of **Archidply Industries Limited** hereinafter referred to as ("the Holding Company") as of and for the year ended 31 March 2025, we have audited the internal financial controls with reference to the consolidated financial statements of the Holding Company and such companies incorporated in India under the Companies Act, 2013 which are its subsidiary companies, as of that date. In our opinion, the Holding Company and such companies incorporated in India which are its subsidiary companies, have, in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls were operating effectively as at 31 March 2025, based on the internal financial controls with reference to consolidated financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that

receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Note: - 1 MATERIAL ACCOUNTING POLICIES

1. Corporate Information:

Archidply Industries Limited (the 'Company') is a public limited company domiciled in India incorporated under the provisions of the Companies Act. Its shares are listed on two recognized stock exchanges in India. The registered office of the company is at Plot No. 7, Sector-9, Integrated Industrial Estate, SIDCUL, Pant Nagar, Rudrapur - 263 153, Uttarakhand, India.

The reportable segments have been identified on the basis of the products of the Company. Company is engaged in the business of manufacturing two broad product segments and one trading product segment, as follows:

- i) **Wood Based Products:** Plywood & Allied Products.
- ii) **Paper Based Products:** Laminate & Allied Products.
- iii) **Wood Based Products:** Medium Density Fiber board (MDF)

It has branches and dealers' network spread all over the country. The Company is procuring raw material & trading goods locally as well as imports them. Goods are sold both in domestic and overseas markets.

The company's shares are listed in Bombay Stock Exchange Ltd. (BSE) and National Stock Exchange of India (NSE).

2. Basis of preparation of Financial Statements :

The Financial Statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as prescribed under Section 133 of the Companies Act 2013 ("the Act"), as notified under the Companies (Indian Accounting Standard) Rules, 2015 and other relevant provision of the Act, to the extent applicable and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the Standalone Financial Statement.

The financial statements have been prepared under historical cost convention and on an accrual basis, except for the following items which have been measured as required by relevant Ind AS:

- a) Financial Instruments classified as fair value through other comprehensive income.
- b) The defined benefit (loss)/profit is recognized as at the present value of defined benefit obligation less fair value of plan assets through other comprehensive income.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The Company's management evaluates all recently issued or revised accounting standards on an on-going basis.

For the year ended 31st March, 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

Where changes are made in presentation, the comparative figures of the previous years are regrouped and re-

arranged accordingly.

3. Accounting Estimates And Assumptions:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting year end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

4. Equity

a) Ordinary Shares

Ordinary shares are classified as Equity Share capital. Incremental costs directly attributable to the issuance of new shares and buyback are recognized as a deduction from equity, net of any tax effects.

b) Capital redemption reserve

As per Companies Act, 2013, capital redemption reserve is created when company purchases its own shares out of free reserves or securities premium. A sum equal to the nominal value of the shares so purchased is transferred to capital redemption reserve. The reserve is utilised in accordance with the provisions of section 69 of the Companies Act, 2013.

c) Securities Premium

The amount received in excess of the par value of equity shares has been classified as securities premium.

d) Retained Earnings

Retained earnings represent the amount of accumulated earnings of the company.

5. Property, Plant and Equipment

OWNED ASSET

- a) Property, Plant and Equipment are stated at original cost (net of tax/ duty credit availed) less accumulated depreciation and impairment losses except freehold land which is carried at cost. Cost includes cost of acquisition, construction and installation, taxes, duties, freight, other incidental expenses related to the acquisition, trial run expenses (net of revenue) and pre-operative expenses including attributable borrowing costs incurred during pre-operational period.
- b) Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of any component as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit and loss during the reporting period in which they are incurred.
- c) Assets which are not ready for their intended use on reporting date are carried as capital work-in-progress at cost, comprising direct cost and related incidental

expenses.

- d) On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment as at 1st April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.
- e) Property, Plant and Equipments including continuous process plants are depreciated and/or amortized on Straight line Method on the basis of their useful lives as notified in Schedule II to the Companies Act, 2013. The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.
- f) Depreciation in respect of additions to assets has been charged on pro rata basis with reference to the period when the assets are ready for use. The provision for depreciation for multiple shifts has been made in respect of eligible assets on the basis of operation of respective units.
- g) Useful lives of the Property, Plant and Equipment as notified in Schedule II to the Companies Act, 2013 are as follows :
 - Buildings – 30 to 60 years
 - Plant and Equipments (Paper Division) - 15 years (Triple Shift)
 - Plant and Equipments (Other Division) - 15 years (Triple Shift)
 - Furniture and Fixtures - 10 years
 - Vehicles - 8 to 10 years
 - Office Equipments - 5 to 10 years
 - Computers – 3 years

LEASED ASSET (RIGHT OF USE ASSETS)

- a) The Company's lease asset classes primarily consist of leases for Land and Buildings. The Company assesses whether a contract is or contains a lease, at the inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:
 - (i) the contract involves the use of an identified asset
 - (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
 - (iii) the Company has the right to direct the use of the asset.
- b) The right-of-use asset is a lessee's right to use an asset over the life of a lease. The Company recognizes a right-of-use asset ('ROU') and a corresponding lease liability for all lease arrangements in which it is a lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases of short-term and low value assets, the Company recognizes the lease payments as an operating expense over the term of the lease.
- c) The right-of-use assets are initially recognized at cost,

which comprises the initial amount of the lease liability adjusted for any lease payments made (Deposits and Rentals) at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

6. Lease Property

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

7. Lease Liabilities

Lease liability is initially measured at the present value of future lease payments. Lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rate. Lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability and reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement also adjusts the related leased assets.

8. Intangible Assets

- a) Intangible assets acquired by payment e.g., Goodwill, Trademark and Computer Software are disclosed at cost less amortization on a straight-line basis over its estimated useful life.
- b) Intangible assets are carried at cost, net of accumulated amortization and impairment loss, if any.
- c) On transition to Ind AS, the Company has elected to continue with the carrying value of all of its intangible assets as at 1st April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the intangible assets
- d) Intangible assets are amortised on straight-line method as follows :

Goodwill – 20 years

Computer Software – 3 years

Trademark- 10 years

9. Investment Property

Investment Property are stated at original cost less accumulated depreciation and impairment losses except freehold land which is carried at cost. Cost includes cost of acquisition, construction and other incidental expenses related to the acquisition, trial run expenses (net of revenue) and pre-operative expenses including attributable borrowing costs incurred during pre-operational period.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal.

10. Impairment of Assets

At each balance sheet date, the Company reviews the carrying amount of property, plant and equipment to determine whether there is any indication of impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of impairment loss. The recoverable amount is higher of the net selling price and the value in use, determined by discounting the estimated future cash flows expected from the continuing use of the asset to their present value.

11. Inventories

- a) Inventories related to raw materials, packing materials, stores & spares are valued at cost on weighted average basis or net realizable value whichever is lower.
- b) Waste & scraps are valued at estimated realizable value.
- c) Materials in transit and Semi Finished goods are valued at cost or market value which ever is lower.
- d) Finished goods and process stock include all cost of purchases, cost of conversion and other related costs incurred in bringing the inventories to their present location and condition.
- e) Finished goods are valued at cost or net realizable value whichever is lower. Net realizable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.
- f) Obsolete, defective and unserviceable stocks are duly provided for.

12. Cash Flow Statement

Cash flows statement are reported using "Indirect method" as set out in the Ind AS 7 on 'Statement of Cash Flow', whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flow from regular revenue generating, financing and investing activities of the Company is segregated.

Cash and cash equivalents in the balance sheet comprise cash at bank, cash/cheques in hand and short term investments (excluding pledged term deposits) with an original maturity of less than twelve months.

13. Financial instruments:

A financial instrument is any contract that gives rise to

a financial asset of one entity and a financial liability or equity instrument of another entity.

A. Financial Assets

(i) Initial Recognition and Measurement

The Company classifies its financial assets as those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss) and those to be measured at amortized cost.

(ii) Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- (a) Debt instruments measured at amortized cost using the effective interest rate method and losses arising from impairment are recognized in Profit and Loss if both the following conditions are met:
 - The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
 - Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.
- (b) Equity instruments at fair value through other comprehensive income.
- (c) Equity instruments at fair value through profit or loss (FVTPL)
- (d) Equity Instruments in subsidiaries are carried at cost, in accordance with option available in Ind AS 27 "Separate Financial Statements".

(iii) De-Recognition

A financial asset is de-recognized only when the Company has transferred the rights to receive cash flows from the financial asset, or when it has transferred substantially all the risks and rewards of the asset, or when it has transferred the control of the asset.

(iv) Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

As a practical expedient, the Company uses historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates to determine impairment loss allowance on portfolio of its trade receivables.

B. Financial Liabilities:

- i) **Classification as debt or equity** - Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.
- ii) **Equity instruments** - An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.
- iii) **Initial Recognition and Measurement:**
All Financials Liabilities are recognized net of transaction costs incurred.

iv) Subsequent Measurement-

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate ("EIR") method. Gains and losses are recognised in profit or loss when the liabilities are derecognised through the EIR amortisation process.

v) De-Recognition

All Financials Liabilities are removed from balance sheet when the obligation specified in the contract is discharged, cancelled or expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

14. Revenue Recognition:

Revenue comprises of all economic benefits that arise in the ordinary course of activities of the Company which result in increase in Equity, other than increases relating to contributions from equity participants. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

Sale of Goods: As per Ind AS 115 'Revenue from contracts with customers', Revenue from sale of goods is recognised when control of the products being sold is transferred to the customer and when there are no longer any unfulfilled obligations. The Performance Obligations in our contracts are fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on terms with customers. The Company derives revenue principally from sale of Plywood, Laminates, Decorative Veneers, MDF and Flush Doors. Revenue shown in the Statement of Profit and Loss are inclusive of the value of self-consumption, but excludes Goods & Service Tax (GST), inter-transfers, returns, trade discounts, other benefits passed to customers in kind.

Services: Revenue from Services is recognized as and when the services are rendered. The Company collects Goods & Service Tax on behalf of the government and therefore, it

is not an economic benefit flowing to the Company and hence excluded from Revenue.

Interest: Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Insurance Claims: Insurance Claims are accounted for on acceptance and when there is a reasonable certainty of receiving the same, on grounds of prudence.

Corporate Guarantee Fee: Corporate Guarantee Fee is accounted for corporate Guarantee given to related party's Banker for their business use. Such revenue is recognised in the accounting period in which the services are rendered in accordance with agreement with the parties.

Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognized as income in equal amounts over the expected useful life of the related asset.

When the Company receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual installments.

15. Foreign Currency Transactions:

The Company's financial statements are presented in Indian Rupees ('INR'), which is also the Company's functional currency.

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate at the date of the transaction. At each balance sheet date, foreign currency monetary items are reported using the closing exchange rate. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rate are recognised as income or expenses in the period in which they arise.

Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rate at the date when the fair value is determined.

16. Employee Benefits:

Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which the related service is rendered.

Post Employment and Retirement benefits in the form of Gratuity and Leave Encashment are considered as defined benefit obligations and is provided for on the basis of

third party actuarial valuation, using the projected unit credit method, as at the date of the Balance Sheet. Every Employee who has completed five years or more of service is entitled to Gratuity on terms not less favorable than the provisions of The Payment of Gratuity Act, 1972.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of reporting period on government bonds that have terms approximating to the terms of the related obligation

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions of the defined benefit obligation are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Employee benefits in the form of Provident Fund is considered as defined contribution plan and the contributions to Employees' Provident Fund Organisation established under The Employees' Provident Fund and Miscellaneous Provisions Act 1952 is charged to the Statement of Profit and Loss of the year when the contributions to the respective funds are due. The Company pays provident fund contributions to publicly administered provident funds as per local regulations.

The Company has no further payment obligations once the contributions have been paid.

17. Borrowing Costs:

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds.

General and specific borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets during the period of time that is required to complete and prepare the asset for its intended use. A qualifying asset is one that takes necessarily substantial period of time to get ready for its intended use.

All other borrowing costs are expensed in the period in which they are incurred.

18. Accounting for Taxes on Income:

Tax expenses comprise of current tax and deferred tax including applicable surcharge and cess.

Current Income tax is computed using the tax effect accounting method, where taxes are accrued in the same period in which the related revenue and expenses arise. A provision is made for income tax annually, based on the tax liability computed, after considering tax allowances and exemptions. Provisions are recorded when it is estimated that a liability due to disallowances or other matters is probable.

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying

amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profits against which the deductible temporary differences, and the carry forward unused tax credits and unused tax losses can be utilised.

Deferred tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognized in other comprehensive income. As such, deferred tax is also recognised in other comprehensive income.

Deferred Tax Assets and Deferred Tax Liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the Deferred Tax Assets and Deferred Tax Liabilities relate to taxes on income levied by same governing taxation laws.

19. Contingent Liabilities & Contingent Assets:

Contingent liabilities are not provided for but are disclosed by way of Notes on Accounts. Contingent liabilities is disclosed in case of a present obligation from past events

- (a) when it is not probable that an outflow of resources will be required to settle the obligation;
- (b) when no reliable estimate is possible;
- (c) unless the probability of outflow of resources is remote.

Contingent assets are neither accounted for nor disclosed by way of Notes on Accounts where the inflow of economic benefits is probable.

20. Current And Non- Current Classification:

The Normal Operating Cycle for the Company has been assumed to be of twelve months for classification of its various assets and liabilities into "Current" and "Non-Current".

The Company presents assets and liabilities in the balance sheet based on current and non-current classification.

An asset is current when it is

- (a) expected to be realised or intended to be sold or consumed in normal operating cycle
- (b) held primarily for the purpose of trading
- (c) expected to be realised within twelve months after the reporting period
- (d) Cash and cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- (e) All other assets are classified as non-current.

A liability is current when

- (a) it is expected to be settled in normal operating cycle
- (b) it is held primarily for the purpose of trading
- (c) it is due to be discharged within twelve months after the reporting period

- (d) there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

- (e) All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

21. Corporate social responsibility (CSR) Activity

In case of CSR activities undertaken by the Company, if any expenditure of revenue nature is incurred or an irrevocable contribution is made to any agency to be spent by the latter on any of the activities mentioned in Schedule VII to the Companies Act, 2013, the same is charged as an expense to its Statement of Profit and Loss and if any extra material amount has been done the same has been carried forward as current asset.

22. Earnings Per Share

Earnings per share are calculated by dividing the net profit or loss before OCI for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss before OCI for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects

of all dilutive potential equity shares.

23. Segment Reporting

The Company's operating business segments are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

24. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that the outflow of resources would be required to settle the obligation, the provision is reversed.

Note 17: Lease liabilities

Particulars	31.03.2025 (Amount in Lakhs)	31.03.2024 (Amount in Lakhs)
Lease liabilities		
Provision for Lease liabilities payable beyond 12 months	361.02	195.62
Less: Short Term Provision	124.94	74.37
	236.08	121.25

Lease liability is initially measured at the present value of future lease payments. Lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rate. Lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability and reducing the carrying amount to reflect the lease payments made. A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement normally also adjusts the leased assets.

* On account of Demerger of Plywood & Block Board and Particle & laminated board (both divisions) of The Mysore Chip Boards Limited in to the Company in the financial year 2007-08: The Company, for and on behalf of The Mysore Chip Boards Limited has given a guarantee towards a show cause notice issued by the Excise Department demanding a dues from The Mysore Chip Boards Limited. However The Mysore Chip Boards Limited had deposited an amount of Rs. 16.00 Lakhs/- (P.Y. Rs. 16.00 Lakhs/) with Central Excise Department. The Mysore Chip Boards Limited had filed an appeal & disputed the said demand and the demand has been reduced to Rs.81.02 Lakhs/- (P.Y. Rs.81.02 Lakhs/) and the penalty of the same amount by Commissioner of Central Excise, Mysore on 05/10/2006. The Mysore Chip Board Ltd has filed an appeal to Custom, Excise & Service Tax Appellate Tribunal, Bangalore and obtained a stay order against that demand. The tribunal has remanded back the case to the Commissioner of Central Excise for taking fresh decision after following the principles of natural justice. The Department has filed the appeal before the Honourable Supreme Court against the order of the Tribunal. The same has been disposed of on 19 th August, 2020 by Honourable Supreme Court, confirming the impugned orders of CESTAT setting aside the Ordersin-Original passed by the Adjudicating Authorities and remanding the matters back for readjudication with certain directions.	81.02	81.02

Notes:-

- The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.
- Finance income and finance cost by instrument category wise classification:-
 - Interest income of Rs. 54.85 Lakhs (P.Y. Rs. 62.51 Lakhs) on financial instrument at amortised cost.
 - Fee on Corporate guarantee received of Rs. 0.25 Lakhs (P.Y-77.74)
 - Interest expense of Rs. 1617.50 Lakhs (P.Y.Rs. 681.67 Lakhs) on borrowing and lease interest of Rs. 36.81 Lakhs (P.Y Rs. 18.48 Lakhs) on Financial Liabilities at amortised cost.

Note 47. Financial Risk Management-Objectives and Policies

The Company's financial liabilities comprise long term borrowings, short term borrowings, capital creditors, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's financial assets include trade and other receivables, cash and cash equivalents, investment in subsidiaries at cost and deposits.

The Company is exposed to market risk and credit risk. The Company has a Risk management policy and its management is supported by a Risk management committee that advises on risks and the appropriate risk governance framework for the Company. The audit committee provides assurance to the Company's management that the Company's risk activities are governed by appropriate policies and procedures and that risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

(i) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises risk of interest rate, currency risk and other price risk, such as commodity price risk and equity price risk. Financial instruments affected by market risk include FVTPL investments.

a. Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities. The Company has a treasury department which monitors the foreign exchange fluctuations on the continuous basis and advises the management of any material adverse effect on the Company.

Foreign Currency sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in foreign currency exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of assets and liabilities.

(Amount in Lakhs)

Change in Foreign Currency Rates	Effect on Profit before Tax	
	As on 31 st March 2025	As on 31 st March 2024
5% USD	4.56	(6.65)
-5% USD	(4.56)	6.65
5% EURO	9.69	9.84
-5% EURO	(9.69)	(9.84)

Notes to Consolidated Financial Statement for the year ended 31st March 2025

b. Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Increase/ Decrease in basis points	Effect on Profit before Tax (Amount in Lacs)
31 st March, 2025	+50	89.41
	-50	(89.41)
31 st March, 2024	+50	70.16
	-50	(70.16)

(ii) Credit Risks

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables).

The Company implements a credit risk management policy under which the Company only transacts business with counterparties that have a certain level of credit worthiness based on internal assessment of the parties, financial condition, historical experience, and other factors. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The Company has established a credit policy under which each new customer is analysed individually for creditworthiness.

Trade receivables

An impairment analysis is performed at each reporting date on an individual basis for all the customers. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on credit losses historical data. The maximum exposure to credit risk at the reporting date is the carrying value of trade receivables disclosed in Note 9 as the Company does not hold collateral as security. The Company has evaluated the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries.

Refer note no 9 for ageing of trade receivable as of 31st March, 2025 and 31st March, 2024.

No significant changes in estimation techniques or assumptions were made during the reporting period.

Credit risk also arises from transactions with financial institutions, and such transactions include transactions of cash and cash equivalents, various deposits, and financial instruments such as derivative contracts. The Company manages its exposure to this credit risk by only entering into transactions with banks that have high ratings. The Company's treasury department authorizes, manages, and oversees new transactions with parties with whom the Company has no previous relationship.

Furthermore, the Company limits its exposure to credit risk of financial guarantee contracts by strictly evaluating their necessity based on internal decision making processes, such as the approval of the board of directors.

Credit risk exposure

The carrying amount of financial assets represents the Company's maximum exposure to credit risk. The maximum exposure to credit risk as of 31st March, 2025 and 31st March, 2024 are as follows:

	(Amount in Lakhs)	
	As on 31 st March 2025	As on 31 st March 2024

Add/(less): Allowance provided during the year	42.70	224.99
Loss Allowance at the end of the year	374.71	332.01

(iii) Liquidity Risk

The Company's objective is to maintain optimum levels of liquidity to meet its cash and collateral requirements at all times. The Company relies on a mix of borrowings and excess operating cash flows to meet its needs for funds. The current committed lines of credit are sufficient to meet its short to medium/ long term expansion needs. The Company monitors rolling forecasts of its liquidity requirements to ensure it has sufficient cash to meet operational needs. Besides, it generally has certain undrawn credit facilities which can be accessed as and when required; such credit facilities are reviewed at regular intervals. Thus, no liquidity risk is perceived at present.

Availability of Liquidity is as follows

(Amount in Lakhs)
